

Greetings from APR,

Amid ongoing concerns about the coronavirus COVID-19, APR Restoration and Commercial Development is closely monitoring the latest reports from the Centers for Disease Control ([CDC](#)). We have begun taking precautionary measures for the health and safety of our customers and colleagues.

Because we are an emergency response contractor we will be fully operational and want to assure you and/or your customers that we are ready to help with any property restoration needs and have initiated the following:

1- Internally, we have shared specific instructions with our employees on the importance of taking the proper steps to protect their safety and the safety of others. We have increased routine environmental cleaning and sanitation protocol.

2- We have activated an onsite protocol to protect both the customers we serve, and our employees. This, by maintaining a NO hand-shake policy, keeping a 6ft distance when assisting customers and the wearing of PPE.

We will continue to closely monitor the situation and evaluate additional measures to support our customers and associates as need arises.

Thank you for your continued support. Please call our office if you or your customers need any assistance with property restoration or to inquire about the disinfecting services we have available.

We are here to serve you!

A handwritten signature in blue ink that reads 'Todd Wadell'. The signature is fluid and cursive, with a long, sweeping underline that extends to the right.

Todd Wadell
