

Inter-Lock Display System

Get the vivid look!

The Inter-Lock Display System is a great promotional system that not only gives high visual impact, but is 100% environmentally friendly. Built with superb rigidity using lightweight paper based board that makes the structure self stand, and is light enough to be gentle on shipping costs.

The interlocking panels are very easy to assemble and disassemble, no need for tools or adhesives. The vivid edging gives that stylish look that helps make the stands unique.

This is an excellent system that allows you to display your graphics in many different indoor environments: retail, trade shows, showrooms, etc.

The individual panel sizes are 22"x22" and the height is adjustable, easily up to 7' or taller.
