

Global Service Corps

## **Coronavirus Information**

GSC has the safety and well-being of its program participants as its highest priority. We are staying informed of the coronavirus outbreak and related health issues in Cambodia. Two websites we refer to are those of the [CDC](#) and the U.K.'s [National Health Services](#).

GSC is interested in continuing to support the work of our partners in Cambodia through programs in 2020. So we are continuing to offer programs in 2020. We will accept applications but not final payments for these programs if participation would create unacceptable risks to participants. While it is the decision of each participant if and when they wish to join our Cambodia programs, GSC will provide as much information as we can to assist in this decision.
