

## Monday, April 11. Day 10 at Sea - by Dr. Wise

Today we went into refuel and make some crew changes. The Captain has to give a presentation in Mexico City tomorrow so she will depart until she brings us in on the 13th. The First Mate will take over as acting Captain and the Second Mate will be acting First Mate. JP is the Sea Shepherd Media expert, he will get off just for the day to help the Captain prepare her talk. Carlos happens to go to school in this port and has to give a presentation at school so he will be off for the day, but back tonight with whales. We are not in prime whale areas so we won't see much. Tomorrow we will be back at it on our last full day in the Sea of Cortez.

I have attached pictures of a whale shark we saw, the boat of the late Steve Jobs founder of Apple that was docked where we refueled and of our lovely sunset.

John
