DISTRICT 3						
Laura D Carder	1	LEG DISTRICT 03 - HOUSE	REPUBLICAN		Very Likely	Stop drugging the children. Cut down on sugar, especially soda pops sweetened with HFCS or aspartame. Regarding CSE: She has XX genomes, he has XY. Why make it complicated? Parents have the right to know what their kids are taught. Regarding homeschooling: Most of them are better educated and easier to talk to.
MARCUS RICCELLI	1	LEG DISTRICT 03 - HOUSE	DEMOCRAT	Very Unfavorable

Christian M McLachlan	2	LEG DISTRICT 06 - HOUSE	NON PARTISAN			
Thomas R "Tom" McGarry	2	LEG DISTRICT 06 - HOUSE	DEMOCRAT			
VIRGINIA C. GRAHAM (JENNY GRAHAM)	2	LEG DISTRICT 06 - HOUSE	REPUBLICAN	Favorable	Liberty	I support informed consent and individual choice regarding vaccines. My family and pets are vaccinated with no adverse effects. That was our choice to make. As a mom I support outside testing for pharma companies in the interest of testing transparency. That said, learning about vaccines, and listening to both sides of this issue is important. Sadly, I'm under attack because I didn't support denying children an education for any reason. School vouchers would help this issue. I also don't understand why both sides wouldn't support outside testing for transparency and accountability. I do understand why some do not support vaccines and I respect their right to choose.
DISTRICT 7						
Georgia D. Davenport (Georgia D Davenport)	1	LEG DISTRICT 07 - HOUSE	DEMOCRAT			
JACQUELIN MAYCUMBER	1	LEG DISTRICT 07 - HOUSE	REPUBLICAN	Favorable		
Gerald B Wandler Jr (JJ Wandler)	2	LEG DISTRICT 07 - HOUSE	INDEPENDENT		Possible	-
JOEL KRETZ	2	LEG DISTRICT 07 - HOUSE	REPUBLICAN	Favorable		Sponsor 2626
DISTRICT 8						
BRAD KLIPPERT	1	LEG DISTRICT 08 - HOUSE	NON PARTISAN	Favorable	Very Likely	The governor's mandates associated with SARS-Cov2 are destroying this state and many of our citizens and businesses and our education system in many ways. Also, I do NOT support comprehensive sex education. Also, I love our home school families.
Shir Regev	1	LEG DISTRICT 08 - HOUSE	DEMOCRAT			
Larry Stanley	2	LEG DISTRICT 08 - HOUSE	OTHER			
MATTHEW BOEHNKE	2	LEG DISTRICT 08 - HOUSE	REPUBLICAN	Favorable	Very Likely	Regarding 5395 CSE: I was there until 4 am helping lead the debate opposing this legislation. I am on the record opposing this legislation and supporting funding that follows the child. We need more parents involved in this process.
DISTRICT 9						
Brett Borden	1	LEG DISTRICT 09 - HOUSE	LIBERTARIAN		Very Likely	Freedom to decide what to ingest and not to ingest is a fundamental human liberty.
DYE MARY L (MARY DYE)	1	LEG DISTRICT 09 - HOUSE	REPUBLICAN	Neutral		*voted for 1638, against 5395
JOE SCHMICK	2	LEG DISTRICT 09 - HOUSE	REPUBLICAN	Favorable

Donna Sinclair	2	LEG DISTRICT 18 - HOUSE	DEMOCRAT			
John Ley		LEG DISTRICT 18 - SENATE	REPUBLICAN		Very Likely	Government should not be controlling the lives of citizens. As our state constitution's preamble states: "All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights." That includes the freedom of people to make health choices for themselves and their families.
Rick Bell		LEG DISTRICT 18 - SENATE	DEMOCRAT			
RIVERS ANNA M		LEG DISTRICT 18 - SENATE	REPUBLICAN	Very Favorable	Very Likely	I am on the record in multiple committees and on the floor of the senate in opposition to 1638, 5841 & 5395.

Candidate (INCUMBENT ALL CAPS)	Pos'n	Jurisdiction	Party	Based on Voting Record	Based on Health Choice Survey	Statement / Notes
Brian C. Thompson (Brian Thompson)	1	LEG DISTRICT 21 - HOUSE	REPUBLICAN		Very Likely	Informed consent is challenging for a health care provider to obtain from a patient when the provider themselves is uninformed or ill-informed. For example, immediately after the birth of my last child, when they asked if we wanted the Vitamin K shot I asked what was in it. I was told it was just Vitamin K. Having done my own research since, I've learned that answer was incorrect - I was misinformed. It seems like too much to expect for each provider to be informed about everything. So, rather than expecting the provider to do sufficient research to present an unbiased position, we could create and require a form to be signed by the parent or guardian prior to administration of a mandatory vaccine. The form could present information much like the summary of a ballot measure, written by an independent entity, and even include statements by experts for and against with rebuttals. It could even be provided prior to the visit so that there is a waiting period (similar to buying a handgun). Because once you pull the trigger on a shot, there's no undo button.
Gant Diede	1	LEG DISTRICT 21 - HOUSE	DEMOCRAT			
STROM PETERSON	1	LEG DISTRICT 21 - HOUSE	DEMOCRAT	Unfavorable

Allen Acosta	1	LEG DISTRICT 22 - HOUSE	LIBERTARIAN			
J. D. Ingram	1	LEG DISTRICT 22 - HOUSE	REPUBLICAN			
Jonny Meade	1	LEG DISTRICT 22 - HOUSE	SOCIALIST		Declined - Very Unlikely	The health of the public (and our children) is a priority in any situation where people are close together for long periods of time. As you know, the Coronavirus pandemic has killed nearly 20 million people, and the GDP has sunk nearly 35% - worse than the Great Depression. We believe schools should be closed at least through the remainder of the year, with the state funding an effort to provide broadband internet to every home and enable students to learn from a distance. You can read more on this stance here: https://jonnyforwa.com/issues/education/ . This campaign stands with public health and the promotion of public health and getting the working families of this state in a position where they can thrive. We do not believe scare tactic questions about education and vaccines is a great way to summarize a campaign.
LAURIE DOLAN	1	LEG DISTRICT 22 - HOUSE	DEMOCRAT	Unfavorable		
Anthony J. Novack	2	LEG DISTRICT 22 - HOUSE	DEMOCRAT			
Jessica Bateman	2	LEG DISTRICT 22 - HOUSE	DEMOCRAT			
Dusty Pierpoint	2	LEG DISTRICT 22 - HOUSE	REPUBLICAN			
Glenda Breiler	2	LEG DISTRICT 22 - HOUSE	DEMOCRAT

Elaina Gonzales-Blanton	2	LEG DISTRICT 23 - HOUSE	REPUBLICAN		Very Likely	I do not support forcing anyone to be injected or otherwise with a vaccination. I do not support parents being forced to allow their children to be injected or otherwise with a vaccination. I do support choice. If parents want to vaccinate, they should be able to. If adults want to, they should be able to. Parents need to be able to parent.

Zach Stover	1	LEG DISTRICT 31 - HOUSE	NON PARTISAN		Unlikely	I believe vaccines are some of the most conclusive and important medical advances in medicine. I believe they should be heavily pushed. I believe it is negligent to avoid vaccines for any reason other than a medical exemption. I do not support mandating them though. I do support requiring certain vaccines to attend public school. I also support prosecuting the negligence when it results in injury or death of others. For example, if a parent opts out of the MMR for any reason not medical, and their child then contracts and spreads one of said virus's to an immune compromised child or causes an outbreak. I am not opposed to finding them liable for damages.

David Wiley	2	LEG DISTRICT 38 - HOUSE	LIBERTARIAN		Very Likely	With regards to mandatory vaccinations for public schools I am sensitive to the desires of some Parents not to have their children be forced to either be vaccinated or forced association with unvaccinated children. I support Parents being able to make informed choices either way and that there should be no compulsion. Public school policies when necessary should support the majority of students and parents in their district. Regardless no child should be denied access to an education and I believe such a denial would be unconstitutional under our state constitution. I hold to a Voluntaryist philosophy of governance as enshrined in Washington State's constitution. "All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights."

Eric Brown (Eric J. Brown)	1	LEG DISTRICT 46 - HOUSE	REPUBLICAN		Very Likely	It is our understanding that there were zero deaths attributed to COVID-19 of students enrolled at K-12 schools throughout Washington. Mandatory vaccinations appear therefore, unwarranted and illegal. We actively advocate for legislation that reopens schools and compensates Washington families for shutting down operations due to a health threat which had a negligible effect on health in schools.

DEBRA ENTENMAN	1	LEG DISTRICT 47 - HOUSE	DEMOCRAT	Unfavorable	Unlikely	I believe that vaccine guidelines should be informed by science and strong medical advisories. When health mandates regarding vaccination for education or work are developed, we need to center them on an equity lens and take into consideration that every family's situation is unique. This means evaluating the underlying factors of poor health access, loss of health insurance coverage due to Covid-19, and other issues of health disparities that influence individuals' ability to access safe and medically informed vaccination.
Kyle Lvebvedyev	1	LEG DISTRICT 47 - HOUSE	REPUBLICAN		Very Likely	
Joseph T Cimaomo Jr.	2	LEG DISTRICT 47 - HOUSE	REPUBLICAN		Likely	I am for personal choice, if someone has a medical or philosophical reason for not getting a vaccine than that is their choice and they are able to make that decision on their own. I am also for ensuring people are protected. But these are all personal decisions that only they can make.

Peter H. Thompson Jr. (Peter Thompson Jr.)	2	LEG DISTRICT 47 - HOUSE	REPUBLICAN			
Theodore Cooke (Ted Cooke)	2	LEG DISTRICT 47 - HOUSE	REPUBLICAN		Very Likely	Because of the Public Safety Act of 1944 vaccines are not treated as drugs but as simple "biologicals" such as milk fat or blood plasma. Because of this they are not subject to the same testing, reporting and legal remedies for fault as drugs. This is bad policy because the delivery medium and methods of vaccines are often not biologicals but classic drug delivery medium and methods. As such vaccines should be classified as drugs and be subject to the same testing, reporting and legal remedies for fault as drugs are under U.S. Code Title 21 Chapter 9 Subtitle V. Furthermore parents should always have complete control over children's health decisions, counseling, treatment, procedures, and administering of any medical substances. When children are in schools or on any government or public property they are still 100% under the ultimate authority and protection of their parents, and neither schools nor the state should ever try to subvert parental authority.

Kelli Danielle Fiskum	1	LEG DISTRICT 49 - HOUSE	INDEPENDENT	-	Very Likely	When elected, I would very much like to sit on committees for Healthcare and Education related. I believe in medical freedom, our Constitution protecting said freedom, and the precedent of undeniable human rights as evidenced by the Nuremberg Code of Ethics of 1947.
Llafet Nathaniel P. (Park Llafet)	1	LEG DISTRICT 49 - HOUSE	REPUBLICAN	-	Very Likely	Families are the ones that ultimately responsible for their children's health. They should be encouraged to explore and research scientific data & seek the counsel of others before deciding the health choices for their family. My wife and I both researched the data on vaccinations for our children and we came to the conclusion to vaccinate our children. In saying, this I believe the medical data can be interpreted either way. But one ultimately must leave to the parent to decide. But where does law decide individual choice and that of the state? This is where we of course are at the mercy of the court. I as a legislator would try to decide what is in the best interest of families to the best of my abilities.
