

May 3, 2021 Pool reopening survey Results

Thank you for taking the time to fill our survey. This survey was a little different as we will be using the result not only to make decisions about reopening but to gauge what is most important to you as we head into opening day.

The survey response was great, we collected 702 unique response, 93% of respondents were previous members and 72.1% already purchased memberships this year. It was evident by this survey that there are still concerns or hesitations from 53% of respondents, the number one concern is cleanliness, followed by use of tables and chairs and shade. There was also a large interest in rules and restrictions relating to COVID-19.

We would like to be sure that we address all your concerns at the Meeting May 10th in addition we will provide a Frequently Asked Questions sheet on Friday for your use.

The question below should not be a required field. I'm not concerned about any of those things. I'm picking cleanliness because I'm always concerned about the over all cleanliness of public bathrooms. I'm concerned there will be a strict mask mandate. We are OUTSIDE and should not be forced to wear a mask.

| I'm simply worried that all of the above will be given needless rules and regulations due to Covid. I want a regular, typical season for my family with NO RESTRICTIONS. We did not sign up for and PAY the pool to come and have our kids masked throughout the summer at our pool. Any masks mandates this year will be strongly fought! And I know for sure I'm not the only one who will fight it. All of my friends and family says the same...nobody who past to attend a pool for the season has any desire to cover their faces in any way shape or form. There is also no more tolerance for other people telling us what's best for our own kids health. Everyone at the pool is not afraid of this or they never would have signed up to begin with! |

My family and I spent a lot of money to join the pool and will be asking for a full refund if restrictions are put in place. Everyone is outside and there is no reason to put protocols in place other than cleanliness which should be a normal occurrence. By now ever responsible adult and kids for that matter should be able to handle going to pool outside. |

| Use of amenities, My children love the water slides and we are concerned that they will be off-limits because of COVID |
| My concern is that LMT will try to institute any kind of mask policy at an outdoor pool. Every single person I speak with knows that would be insane. People not comfortable around maskless people at an outdoor pool have the choice to not come. OR IF THEY DO, THEY CAN CHOOSE TO WEAR A MASK. I imagine many costly lawsuits and cancelled memberships if the pool tries to go that route. |

| Will my daughter be able to go to the pool at the same time as her close friends or will the pool be limiting who can go each day based on last name? If so, she will not want to go as her closest friends are not near us alphabetically. I'm very interested in how this is going to be addressed. |

| The pool is no longer fun for the kids. It's ridiculous that a kid can't ride his bike to the pool to go swimming. What used to be a great, family friendly pool seems to be more focused on competing with the NAC. Put the focus back on the kids and we'll return. |
