

## Hardware Requirements

This guide is intended for staff members using a computer or device to process student behavior or attendance using the SSICA 2.0 App, Proscanner 2.0 App or Proscanner.org (Web browser).

### **Windows PC**

School computers used for SSICA should be running Windows 7 or higher, have at least 8 GB of RAM, and have an Ethernet card and cable. Wireless is also highly recommended. If you are purchasing a computer, or looking to upgrade, most new computers that are shipping from major computer manufacturers meet or exceed our minimum requirements. See our guidelines (minimum and recommended) for specifications needed to use our wired or wireless network. Check with the department of your major course of study for any special requirements. For a new computer purchase we recommend at least:

- Intel Core i5 equivalent or better
- 8 GB RAM or more
- 128 GB or larger hard drive
- Windows 7 or higher • 10/100/1000 Ethernet card or USB Ethernet Adapter (<http://www.apple.com/search/ethernet-adapter>) and an Ethernet Cable and/or wireless Ethernet 802.11a/n. Intel chipset recommended over Broadcom chipset.
- Chrome Browser
- Keyboard, Speakers, Mouse, Soundcard, 14" Monitor
- Optional but recommended: Surge Suppressor
- USB for scanner

### **Mac**

All of the current Macintosh computers meet or exceed our minimum requirements. For those of you looking to bring an existing Macintosh to campus, we suggest the following minimum requirements:

- Intel Core i5 or better
  - 4 GB RAM or more
  - 128 GB or larger hard drive
  - OS X 10.8 or higher.
  - Chrome Browser
  - USB available for scanner
  - OS X 10.8 or higher.
  - For network access, 10/100/1000 Ethernet Card or USB Ethernet Adapter (<http://www.apple.com/search/ethernetadapter>) and an Ethernet Cable, and/or wireless Ethernet 802.11a/n.
- Keyboard, Speakers, Mouse, Soundcard, 14" Monitor

## **Chromebooks**

The Chromebook should have the latest Chrome browser, connection to the Internet and a USB available to connect a scanner. Should have a minimum of 4gb of RAM.

## **Tablets**

We recommend an iOS (Apple) or Android tablet. The tablet should have a camera available and have access to the internet or Wi-Fi connection.

### *iPad Requirements*

Must be running the latest iOS. iPad 3 or above will work with SSICA 2.0. Should have access to the internet. iPad Mini's with a camera will also work. iPad Pros and iPad Airs will also work.

### *Android Tablet*

Must be running operation system of 5.0 or higher. The tablet should have a camera and access to the internet.

### *iPods*

iPod series 3 or above should work. The iPod should have a camera and access to the internet.

## **Smartphones**

Your smartphone must be running the latest operating system.

### *iPhone*

The iPhone operating system should be running iOS 10 or higher. The phone should have a camera available for SSICA to use. SSICA will need to have access to your location, Bluetooth (since you can connect a Bluetooth scanner) , camera, wifi or internet.

### *Android*

Your Android phone should have should be running 5.0 or higher. The phone should have a camera available for SSICA to use. SSICA will need to have access to your location, Bluetooth (since you can connect a Bluetooth scanner) , camera, wifi or internet.

### *Windows*

The phone should be running windows or 8 or higher. The phone should have a camera available for SSICA to use. SSICA will need to have access to your location, Bluetooth (since you can connect a Bluetooth scanner) , camera, wifi or internet.

## **Optional Accessories**

SSICA does sale thermal printers to use with Proscanner.org, Bluetooth scanners for devices and computers and wired scanners that can be connected to the computer to process student behavior.
