

All Saints Museum is a catechetical and educational program in line with the new evangelization that brings our beloved Saints to life! All Saints Museum inspires everyone to be a Saint by a deeper understanding of the Body of Christ and their relationship with us.

All Saints Museum collects, studies, conserves, and presents materials related to Christian Saints (including but not limited to Art, Relics, and documentation) across all times and cultures in order to inspire people to live lives in imitation of these holy people. This effort is geared toward building a better future for our community and a better society in general through the hope and humility that the Saints demonstrate by joy even in the face of death.

All Saints Museum is like no other. It combines the traditional museum structure – Art and History exhibits – with modern technology and an interactive experience. All Saints Museum includes capabilities for radio broadcasting, group presentations and speaker engagements, as well as a retreat center and hotel. This is an exciting way to experience and build lasting memories of the Saints of the past, with the intent to educate and inspire Saints of the future!
