· We would consider rent possibilities for this machine, if you are interested.

· We can provide Buyer with additional bucket, stick, or attachment options upon request, and at additional cost.

· Machine breakdown, and load out for shipping is included free in the price of this machine. Detailed and professional plugging of all open hydraulic lines, detailed accounting of all hardware, pins, and accessories, is something we take great pride in.

This machine came to us from a Komatsu Dealer, who had the unit on rent to a good customer.

A very sound, and solid machine both mechanically and cosmetically. The Cylinders are Dry, the Linkages are Tight.

We have called in the local Komatsu Dealer, to perform a complete pressure testing of all components and functions to Komatsu Spec, and also perform a complete detailed machine inspection. A pre-sale work order is also currently being completed, including all fluids and filters to be freshly serviced, any visual seeps or leaks taken care of, along with several other items.

Please call or email us, to request additional information we will send you, including the Full work order, dealer inspections, the Service History, and Full Pictures. We can also get you very fair freight rates, to anywhere in the country.

We invite your own personal or 3rd party inspection of this machine anytime, located at our facility in Bellevue, Iowa.

Price: **\$338,000**
