Historic Travellers Rest COVID Camp Policy

We are happy to be able to welcome campers to Travellers Rest for camp this summer. We are following all American Camp Association (ACA) and Centers for Disease Control (CDC) guidelines and adhering to Mayor Cooper’s Day Camp Guidance issued for businesses opening in Phase 2 of the Roadmap to Reopening to be able to safely welcome your child to our property.

For your camper’s safety, we will be taking the following precautions:

- All staff will be wearing masks.
- All high traffic areas are being cleaned regularly throughout the day in accordance with CDC guidelines.
- Camp tables will be spread throughout the barn with 2 campers at each table, on opposite sides to maintain social distancing.
- All tables and chairs used by campers will be cleaned daily.
- All buildings will be ventilated and open to allow for maximum circulation as recommended by the ACA.
- The barn and the restrooms in the barn will be closed to all visitors. Only campers and TR staff will have access.
- Each camper will have an individual sign-in/out. We will also be using a non-contact thermometer to check each camper’s temperature at drop-off.
- We will schedule outdoor activities as much as possible to allow for maximum social distancing.
- We will be providing individual supplies for campers. Any supplies that need to be shared will be cleaned between individual camper usage.

We ask that you and your camper please do the following to ensure the safety of other campers:

- Please Drop-off your camper at the barn, take the driveway to the right of the giftshop to the back of the property.
- We ask that parent and camper stay in your car until temperature is taken.
- For the safety of other campers and staff, any camper with COVID-19 symptoms will be asked to return home.
- Early and after care will also take place in the barn.
- We will not be able to provide snacks this summer. Please send your camper with an extra snack with their lunch.
- Water will be provided from a cooler that will only be operated by camp staff wearing gloves.
- All campers will need to bring a mask and they will be worn all time indoors.
- Campers will keep their personal property in a space assigned to them at the beginning of camp.
- All campers are expected to keep their distance from other campers and their personal property.
