Historic Travellers Rest

COVID Camp Policy

Dear Parents & Guardians

We are happy to welcome campers to Historic Travellers Rest for camp this summer. To provide a safe and healthy environment for your campers, yourselves, and our staff at the present time, we are following all Centers for Disease Control (CDC) guidelines, and guidelines set by Metro Nashville & the State of Tennessee. Below are detailed measures we have taken to ensure your safety and the safety of our staff.

*Special Note – Historic Travellers Rest reserves the right to amend these measures as necessary, based on current conditions as well as guidance from the CDC, Metro Nashville & the State of Tennessee. *

For your safety and that of your campers, we will be taking the following precautions:

- All staff have been fully vaccinated and will wear masks while indoors.
- All high traffic areas are being cleaned regularly throughout the day in accordance with CDC guidelines.
- Camp tables will be spread throughout the barn with a limited number of campers at each table to maintain social distancing.
- All tables and chairs used by campers will be cleaned daily.
- All buildings will be ventilated and open to allow for maximum circulation of air as recommended by the American Camp Association.
- All of our camps will have 20 or less campers per week.
- We will schedule outdoor activities as much as possible to allow for maximum social distancing.
- We will be providing individual supplies for campers. Any supplies that need to be shared will be cleaned between individual camper usage.

We ask that you and your camper please do the following to ensure the safety of the other campers:

- Please drop-off your camper at the barn, take the driveway to the right of the giftshop to the back of the property.
- A camper’s health will be screened daily through a series of questions asked of parents and/or guardians.
- For the safety of other campers and staff, any camper with Covid-19 symptoms will be asked to return home.
- If a camper develops or notices signs of Covid-19 during the week they are attending camp, please notify the camp director.
• All campers will need to bring a mask with them to camp.
• We understand that not all children under the age of 16 have been fully vaccinated, and though masks are not required they are strongly encouraged to be worn correctly by campers while indoors.
• Early and after care will also take place in the barn.
• If you would like to send an extra snack and bottled water for your camper, please do so.
• Parents or Guardians will be notified if a camper or staff member becomes ill and is diagnosed with Covid-19 while maintaining their privacy.

If you have any other questions or concerns regarding these recommendations, please contact Andy Blair, the Director of Education & Outreach for Historic Travellers Rest at 615-832-8197 ext. 15, or by email at andy@historictravellersrest.org.

Sincerely,

The Staff at Historic Travellers Rest
