

10 Inch Commercial LED Down Light

FEATURES ///

ENVIRONMENTALLY FRIENDLY, ENERGY EFFICIENT

- The Etrenzik LED 10 Inch Commercial Down Light delivers up to 4100 lumens.
- High efficiency replacement for commercial and industrial applications.
- UL Certified for acceptance in rebate, incentive and other programs nationwide
- No harmful ultraviolet or infrared wavelengths
- Contains no lead or mercury

PRODUCT SPECIFICATIONS ///

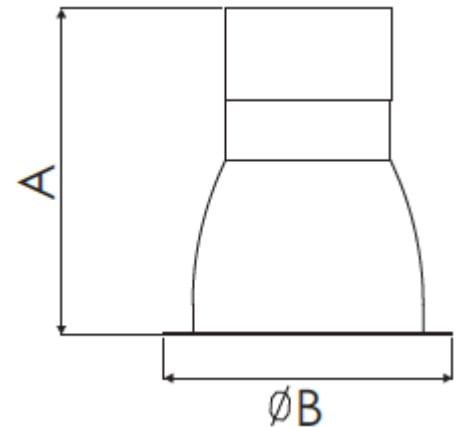

Superior quality white LED light output using CREE Chip on Board technology. LED source has been testes in accordance with IESNA LM-80-2008 in an independant lab. Standard color management maintains superior color consistency over time and temperature. CCT classification according to the ANSI C78.377-2008 standard.

The source mounts directly to heat sink, extend aluminum heat sink with even distribution hackle cool board. High thermal conductivity, reasonable of radiation coefficient and convection coefficient to solve thermal management system design of the cooling. This enables the LEDs to consistently run cooler, providing significant boosts to lifetime, efficacy, and color consistency.

The reflector is made of metal material and with surface oxidized, which effectively enhances the lumen output ratio. Also its fish scale shape design on interior surface prevent lighting glare very well, making the light effect even and free from layering.
