## (Coming Soon!) Face Visor/Shield – Made in Germany

**Our Price: \$25.00**

**Item #:**  
**FACEVISOR-M2-33-11-00-00**

FACE VISOR, a face shield made of medical-grade, very light plastic which can be cleaned with disinfectant. Direct droplet contamination can be prevented during daily work. Due to the easily replaceable, flexible and non-splintering film, the face visor offers a perfect barrier to other people, but does not pose any risk of injury.

Frame made of medical-grade plastic; binding cover with 4 holes; adjustable elastic for easy sizing

Dimensions: width 5.7" x height (incl. visor) 8.3" x length 7.5" / Weight: 1.25 oz

You can change the face shield at any time with a few simple steps. You do not have to buy expensive replacements. We can also supply you with pre-punched shields.

Your advantages at a glance:

- made of medical-grade plastic, easy to disinfect
- strong but light for easy, comfortable use
- Adjustable head strap for multiple sizes
- plastic visor component can be easily replaced
