

“Organizing Your Kids for Online Academic Success”

Picture this potential coronavirus-driven household virtual schooling scenario. Your children could be:

- Up all hours of the night playing video games
- Sleeping all day
- Missing virtual classes
- Eating everything in sight
- Living on the couch
- Never changing their clothes, etc.

If that doesn't scare you, are you:

- Feeling panicked and anxious about your kids' virtual learning challenges?
- Concerned that your student may not pass his/her classes?
- Worried that your senior might not graduate?
- Prepared to help your children manage 16 hours in their days?
- Armed with activities that will contribute to their well-being?

These questions and their solutions will be discussed in a 30-minute webinar with time for Q&A

Offered live twice at:

Wednesday evening, March 18 at 8:00 pm

Thursday morning, March 19 at noon

To register:

Send an email to mcooper@thestudentorganizers.com to receive the webinar link.

and

Remit \$45 via Zelle to mcooper@thestudentorganizers.com

Join Student Organizers of Atlanta as we offer logical and creative solutions for parents to implement immediately as they attempt to navigate this uncertain time with their children.

These tips will positively impact your children's educational experience and enhance their overall health and well-being.

Maintain your household's sanity!!! Spend 30 minutes with the Student Organizers of Atlanta to begin this challenge.

Student Organizers of Atlanta, comprised of Certified Professional Organizers with over 30 years of combined experience, has been working with students and their families since 2006 to help them develop organizational and time management skills. As a result, the students become: more organized for academic success, better time managers, more responsible family members, more self-confident, and less stressed.
