

HELP FOR PEOPLE LIVING WITH APHASIA

ONLINE APHASIA GROUPS

The Aphasia Center of Tucson has expanded its programming to include online aphasia groups.

Regardless of where you live in Arizona, you can receive quality aphasia services to help in your recovery.

Our aphasia groups provide opportunities to practice your communication skills and to be part of a dedicated and caring community.

We offer a variety of groups - Conversation Groups, TED Talks Groups, Virtual Tours Groups... all designed to get you talking in a supported and positive environment.

Groups are offered on a semester basis. Enrollment is ongoing until groups are full.
