1.0 INTRODUCTION

RENOVA is an 8(a) and HUBZone-certified, small business with core competencies as a self-performing environmental remediation, construction, and project management firm serving our clients since 2006. We employ an experienced team of project managers, environmental scientists and engineers, and heavy equipment and CDL operators. We welcome projects ranging from residential oil tank removals to large-scale remediation implementations incorporating geotechnical construction. We have a proven track record of delivering projects on time, on budget, and with an excellent safety record. Through our successful teaming partnerships with large businesses and independently, RENOVAs supports various Federal agencies in accomplishing their missions. At the federal, commercial, and residential levels – we handle all of your environmental needs, licensed, bonded and insured for peace of mind.

Mission Statement

Our mission is to provide cost-effective environmental contracting and project management services through process-driven systems to protect human health and the environment, and to support our clients by maximizing the overall value of their project.

2.0 PROFESSIONAL SERVICES DESCRIPTION

RENOVA offers a wide variety of cost-effective and responsive contracting services to residential, commercial, and industrial clients. We are proficient at working with Federal agencies, environmental consulting and engineering firms, insurance companies, environmental attorneys, general contractors, and residential homeowners.

RENOVA's experienced, in-house crews consist of OSHA-30 construction supervisors and OSHA-40 HAZWOPER-trained equipment operators, CDL drivers, and field technicians. We are licensed, insured, and bonded.

RENOVA is proud to consider itself an expert in offering the following services:

2.1 Environmental Remediation, Engineering and Project Management Services

RENOVA offers turnkey environmental contracting and project management services. We self-perform on our work, which results in services being performed more efficiently, cost effectively, and most importantly – safely.

RENOVA provides custom solutions for the remediation of contaminated media from hazardous and non-hazardous sources. Each project presents a unique set of circumstances which RENOVAs uses to implement a remediation plan that's both effective and cost-efficient. We provide services to our clients that go beyond what is stated in the scope of work; we understand their

objectives and work with them to facilitate their achievement. We are also committed to staying on the cutting edge of industry techniques to get the job done right.

Services include:

- Underground Storage Tank Management
- Soil Excavation
- Geotechnical construction
- Transportation and Disposal
- Dewatering and Groundwater Pump and Treat
- Operation and Maintenance (O&M) of Remediation Systems
- Landfill Capping

2.2 Underground Storage Tank (UST) Management

RENOVA is an expert at UST location and closure. Our services and experience include working with a wide array of tank sizes, volumes, and contents, both regulated and unregulated. Our expertise includes: remote tank locating and inspections of size and contents, tank decommissioning or abandonment-in-place, and remediation of contaminated media.

2.3 Geotechnical Construction Services

RENOVA provides structural support and geotechnical construction services for federal, commercial, and residential clients. We are certified and experienced in implementing effective structural support systems for environmental and general construction applications. We work with licensed professional engineers to implement systems which offer the safest protection required.

Pile expertise includes helical piles, drilled mini piles, sheet piles, and H-Piles with the following applications:

- Foundation support for elevated homes;
- Shoring up of sinking foundations;
- Shore of excavation;
- Sliderrail and trenchbox system installation;
- Environmental walkways;
- Ground-based solar panel foundations;
- Slope stabilization and retaining walls; and
- Various other deep foundation applications.

3.0 SAFETY AND TRAINING PROGRAMS

3.1 Corporate Health and Safety Program

RENOVA's top priority is always the safety of our team members and of others who may encounter our project sites. Our entire organization embraces a culture of safety to ensure everyone's health and to ensure compliance with regulatory requirements. All team members are trained in the latest OSHA safety and construction standards and participate in periodic re-training and certification programs. Toolbox Talks are given daily with all field personnel. Independent, 3rd party safety audits, in addition to unannounced management-led safety visits, provide a fresh set of eyes and ideas to make sure RENOVA's Health and Safety Program is effective.

Certification and Training Programs include:

- OSHA 40 Hour Hazardous Waste Operations and Emergency Response (HazWoper) Training
- OSHA 30 Hour Construction Safety and Health Training
- OSHA Confined Space Entry Training
- Fall Protection
- US EPA Hazardous/Toxic Waste Management Training
- US DOT Hazardous Materials Transportation Certification
- First Aid/ CPR Certification
- Commercial Driver's License – Class A and Hazardous Materials Endorsements

Appendix I SUMMARY INFORMATION

A. Summary Information

- Primary NAICS Code: 562910
- DUNS #: 042451981
- CAGE Code: 688J7
- DSBS #: P1464090
- 8(a) Case #: 305549
- HUBZone #: 61115
- Bonding Capacity: 7.5M/7.5M
- EMR: .984 (through 12/6/19)
- DBE Certified

B. Certifications and Licenses

- NJ Business Registration Certification #: 128874
- NJ Home Improvement License #: 13VH03863000
- NJ Public Works Contractor Certification #: 687204
- NJDEP UST Certification #: US331315
 - *for Closure, Subsurface Evaluation, and Tank Testing*
- NJ SBE Certification #: A0009-03
- NJ MBE Certification #: 65428-20
- NYC MBE Certification # MWCERT2017-1054
- NY & NJ Port Authority MBE Certification
- NJDEP Solid Waste Transporter (A-901 exempt)

C. Insurance Information

- Commercial General Liability/Professional Liability/Contractors Pollution Liability
 - Carrier: Admiral Insurance Company
 - Coverage: \$5MM Each Occurrence / \$5MM General Aggregate
- Commercial Automobile Insurance
 - Carrier: New Jersey Manufacturers Insurance Company
 - Coverage: \$1MM Combined Single Limit (CSL) Each Accident Liability
- Workers Compensation
 - Carrier: New Jersey Manufacturers Insurance Company
 - Coverage: \$1MM Each Accident / \$1MM Policy Limit (per statutory limits)

D. Affiliations and Memberships

- Society of American Military Engineers
- Environmental Business Council of New Jersey
- Better Business Bureau
- New Jersey Business Industry Association
- Deep Foundations Institute
