Introducing

NAP Trends
About NAP Trends

Purpose
To synthesize and share the latest information and trends in NAPs

Objectives
• Raise awareness of progress on and content of NAP documents submitted to the United Nations Framework Convention on Climate Change (UNFCCC)
• Provide inspiration for countries seeking practical examples of approaches to NAP documents
• Disseminate information on key themes and trends in NAP documents to the adaptation community
A platform analyzing the latest information and trends in National Adaptation Plans (NAPs)

NAP Trends, an initiative of the NAP Global Network, aims to share key information on NAPs to make it easy to access for the adaptation community. The platform provides concise summaries of key information in NAP documents, as well as analysis of trends across countries. It is based on systematic reviews of NAP documents submitted to NAP Central, the portal for NAPs communicated to the United Nations Framework Convention on Climate Change (UNFCCC).

Currently, the platform presents information for NAPs submitted to the UNFCCC by December 31, 2021.*
