What is Guide Camp Skills all about...?

On April 25th, Girl Guides will be coming from all directions to converge on Cates Park in North Vancouver - to roam the park and the seaside and discover the fun of camping in the outdoors. This hands-on round robin event, introduces girls who are new to camping, to the skills they'll need, such as putting up and looking after a tent, creating a handy shelter with rope and tarps, lighting a stove, cooking fun food different ways and coaxing a fire to life. For hundreds of girls, this Lions Area tradition has been a chance for Units to experience these things together and feel prepared for their first camp. Friendly and experienced Guiders will be there to share their knowledge.

Attending Unit Guiders will be engaged supporting their girls in doing the activities.
