

FOR THE MONTH OF APRIL . . .

Important Dates

March 27th - April 8th

April 20th and 21st

Classes resume

Yoga

Just a note . . .

Our Hipkids project this month is Mother's Day Self Care Kit. Life changes a lot when you are a new mother. Help young teenage mothers by making self care kits for Mother's Day by donating items that help mom with her busy schedule. Donate small hand lotion, wipes, grab and go snacks, gum, peppermints, travel mug, hair accessories (combs, elastics, dry shampoo), facial wipes, lip alm, emery boards, crew socks, or create a card wishing her a happy day and reminding her how important her role as a mother is for all of us!

Doantions are due April 23rd

- I will be offering some theme classes in April including:*

SUNDAY, April 18th 10am - 12pm Fairytales

Fairy tales have existed through generations and appeal to both boys and girls. Children learn that life is not always perfect, but through hard work, dedication, and persistence anything is possible. With a selection of a few fairytales, children will explore these fairytales through games and crafts and continue to enjoy the stories that will continue to be passed down from generation to generation.

SUNDAY, APRIL 25TH 10am - 12pm SPRING SCIENCE

Science is fascinating for preschoolers as they watch things explode, turn color or change in some way from its original state. Children will participate in science experiments focused around spring and summer. Be prepared to release the scientist in your child!

A minimum of 4 children are required to run the classes. The cost is \$20/child. Please let me know if you are interested.
