**Linking YSAFE with other youth networks and institutions in the Region**

IPPF EN has strengthened linkages between young people from the YSAFE and other European youth networks. In 2008, we were successful in bringing our young people around the table at the European Commission where we liaised with other youth movements such as the *European Youth Forum*, *WAAGS* (the World Association of Girl Guides and Girl Scouts) and *YouAct* (a group of young activists on sexuality and reproduction), to coordinate crucial inputs to decisive health strategies that should affect future generations.
