The safety and health of campers is of an increased focus this summer, as we aim to adapt to the everchanging conditions of a post-COVID environment while still retaining the traditions and identity that have made our summer day camp so unique. Campers participate in a variety of daily activities, including structured and elective time periods, taught by specialists in their areas of expertise, to create their own unique summer experience. During each two-week session, campers participate in a variety of different classes and activities as part of their structured periods which include: daily swim lessons and recreational swim time, art, dance, martial arts, social studies, outdoor education, science, Israeli cultural studies, creative writing, movie making, gymnastics, digital media, performing arts, sports, and others (depending on the Camp Chai session). Themed weeks, special events, field and camp spirit days, and other events are part of all sessions. Before and after care services are available from 7:00-9:00AM and 4:00-6:00PM.

This is a great opportunity for young artists to spend an entire, fun-packed week immersed in making art! Fascinating, creative themes will be woven into: a full day of clay, two days of 2-D multi-media projects (drawing, painting, collage), and a day of 3-D recycled art. August camp will spend an awesome afternoon at the Art Museum! On the final afternoon, an art exhibit has become a tradition of this camp as parents and family will be invited to view the Feats de Petit Artistes. Projects will vary between June camp (Session 1) and August camp (Session 2).
Art in the morning, art in the afternoon, throw in a daily swim at the pool, a few gentle yoga classes, and some free-form dancing; what more could an artist's heart desire? Sorry parents, this camp is just for kids!
