- Server Deployment and Virtualization using Hyper-V, VMware, and Microsoft Azure
- Cloud Technology Design and Implementation
- Messaging using Microsoft Exchange and Office 365
- Enterprise Storage
- Network Infrastructure (switching, network design)
- Unified Threat Management and Network Security

### **Senior Project Engineer Preferred Qualifications & Skills:**

- Strong experience with the architecture, planning and implementation of Virtualized environments using Hyper-V, VMware, and Microsoft Azure
- Strong experience with Windows Server 2016 / 2019 components (Active Directory Domain Services, Active Directory Certificate Services, Active Directory Federation Services, Remote Desktop Services, File/Print Sharing Direct Access, DNS / DHCP, etc.)
- Previous consulting experience preferred

### **Additional Skills Required:**

#### **Strategy-Minded Focus**

- Understand how core business processes and technology can increase revenue, decrease costs, and/or increase productivity for our clients
- Blend together available solutions that are driven by Business Intelligence, Workflow Efficiencies, and the ability to demonstrate strong ROI options

---

### **Client Advocate**

- Contribute to a positive client experience at all levels
- Provide solutions that create real value and a ROI for clients
- Committed to service, integrity, and relationships with our clients

### **Leader**

- Maintain loyalty to overall company vision and a team environment
- Be proactive and contribute to process improvement and change
- Model professionalism both internally and externally
- Ability to Coach and Guide Team Members

### **Benefits Include:**

- Medical Insurance
- Company paid life Insurance
- Dental Insurance
- Vision Insurance
- Flexible Spending Account
- Company matching 401K plan
- Paid time off
- Paid holidays
- Professional environment where your ideas are encouraged, and you have the opportunity to grow your career
