

**Let's visit the  
Museum**

**This is The Hyde Collection. You will visit to see art.**

**People just like you visit! The Museum is a fun place to share with your family.**

**Who collected all this art? Charlotte and Louis Hyde made their home an art museum so people in the community could come to see the art.**

**There is some interesting art at The Hyde Collection.**

**How will you get to the Museum? Will you ride a bus? Will your class walk?**

**When visiting the galleries, you will also meet the Collections Manager, Barbara. Barbara works hard to make sure every work of art is properly taken care for. She wears special gloves to protect the artwork from oils in her hands. She and the curator are the only ones allowed to touch the art.**

**You will see security guards, who are there to keep all of the people and art safe. Kyle is wearing an I.D. tag with his name and photo on it.**

**When you get there, Keri, Jenny, Chas, Mike, and Sue will greet you.**

**You will walk into the entrance of the Museum building. What will you find?**

**What is in this painting?  
“There are flowers,” says Keri, and she points at it. She stands far back so her finger doesn’t touch the painting.  
Good job, Keri!**

**You will see some sculptures. We will talk about these things together.**

**You will see the Visitors Services desk.  
Good morning, everyone!**

**We will look at the galleries together.  
Here are some visitors enjoying a painting.  
They are looking closely, and telling each other what they see.**

**You will see some paintings in fancy frames.**

**In Hyde House, you will see  
some furniture but you can't  
take a nap there.**
