Main Logline

Quantum Activation is a book that successfully bridges the gap between science and spirituality to empower you to overcome your obstacles.

Deepak Chopra – Quote

“Once you understand that the physical world is a human construct and an interpretation of changing perceptual activity in consciousness, it's a natural conclusion that reality is subject to revision. In this remarkable book by physicist Amit Goswami and his colleagues Carl David Blake and Gary Stuart, you will learn the science behind overcoming obstacles and the scenes of the universe of infinite possibilities, which can be coaxed into almost as many actualities of experience.”

Deepak Chopra

Author, *Metahuman*

deepakchopra.com

Dr. Partha Nandi – Excerpt

“In a world where there are so many telling all of us to avoid hardships, take the road *most* traveled, and pursue only paths of smooth sailing, ***Quantum Activation*** shows us that each moment of challenge and transient difficulty help us to further ourselves and achieve greater abilities, to delve into our spirituality and consciousness. Using spiritual theories and then coupling them with science, Amit, Gary, and Carl give a blueprint on facing, resolving and thriving through obstacles and negativity.”

Dr. Partha Nandi (Ask Dr. Nandi TV)

QUOTES

"*Quantum Physics is the physics of possibility that gives you entry into the storage bank of infinite possibilities, of which you have lost the key!*" ~Amit Goswami from the movie *What the Bleep Do We Know?*

"*There has never been a person in the history of the world who lost money investing in their own personal development.*" ~Anonymous

Amit Goswami PhD., explained to Joe Rogan on his podcast, *The Joe Rogan Experience (JRE)*, "We live in a very, very wonderfully, creative world."

AWARDS

Quantum Activation is an International Best-Selling book on Amazon.

Educational Self Help Statistics

In The West, the field of Self Help supposedly began with a book called *Self Help* by Samuel Smiles under the category of Self-Improvement in 1859. From here, the field has exploded. Human civilization is moving towards a traveling-scholar, educational society, like the Medieval period, where the elite paid traveling scholars good money to teach them. Today, however, with the advent of the Internet, many of the traveling scholars are free while others come at a fee, some steep. People are thirsting for knowledge, which is great!

Table of Statistics

- Most Popular TED Talk: *Do schools Kill Creativity*. (67 million views on TED) and (19 million on YouTube) and growing!
- According to marketresearch.com, there is a \$10 Billion Self-Improvement Market for 2018, and it's growing. According to Medium.com, Market researchers have predicted that the industry will be worth \$13 billion dollars by 2022.
- Cognitive Assessment and Training Market will reach \$7.5 billion by 2020 (Markets and Markets).
- Education technology spending globally will reach \$19 billion by 2019 (Fortune Magazine).
- According to Dean Graziosi, success coach, the knowledge industry is a \$455M/day industry and growing.

Acknowledgements

We would like to give a special thanks to Deepak Chopra for his literary and spiritual support plus his excellent quote for our book.

We would also like to acknowledge the following editors for their help on this book. To Jeanne Compeau Keel, an excellent developmental editor, for helping to keep us on track with content of the entire book. To Ahlem Lamkarfed, a wonderful friend and reviewer, for her help guiding the direction of the book. Tommy Nguyen, a very talented student editor attending the University of Southern Californian (USC) for catching errors that we missed and Garrett Kukier, an exceptionally keen-eyed student editor attending the University of California at Los Angeles (UCLA) for rectifying errors and keeping us concise.

We would like to acknowledge the following people for their written narratives for this book. Especially, Dr. Partha Nandi for his heart-felt story, regarding his healing with master Constellation healing facilitator Gary Stuart. Valerie Rene Sheppard for bringing diversity and profound insights around the history of slavery and its generational effects in the USA. Also, Armand Mastroianni, a great Hollywood director, for his amazing story, his insight, and his honesty of what it takes to moving past your obstacles and make it in Hollywood.

We would also like to acknowledge amazing reviewers Jill Fischer, Serenity Raven-Wolf, Liberty Forrest, Vesna Matic and Karen Morgan. In addition, we would like to thank Pedro DeJesus for his continued support throughout the years.

There is no greater time in the history of all of our lives than right now to go on our journeys and remove our obstacles. We are all living in challenging times, and the last thing we need to do is hold ourselves back. Remember, we all have much more potential than we realize. Now is the time to activate, transform, and release any obstacles that does not serve our greater good.

Amit
Goswami

Carl David
Blake

AMIT GOSWAMI

Bio

Dr. Amit Goswami is a retired professor of physics at the University of Oregon (1968 - 1997). In 1985, he discovered the solution to the quantum measurement problem and developed the quantum science of experience expounding how consciousness splits into subject and object. Subsequently, he developed a theory of reincarnation and combined conventional and integrative medicine within the new quantum science of health.

Among his discoveries are the quantum theory of the creative process, the theory of quantum evolution, and the theory of quantum economics that extends Adam's Smith's capitalism into a workable paradigm for the 21st century. In 1999, he started a movement called *Quantum Activism*, now gaining ground in North and South America, Southern and Eastern Europe, and India. In 2018, he and his collaborators established Quantum Activism Vishwalayam, an institution of transformative education in India, based on quantum science and the primacy of consciousness.

He is the author of numerous books, most notably: *The Self-Aware Universe*, *Physics of the Soul*, *The Quantum Doctor*, *God is Not Dead*, *Quantum Creativity*, *The Everything Answer Book*, and *Quantum Spirituality*. He was featured in the movie *What the Bleep Do We Know!?* and the documentaries *Dalai Lama Renaissance*, and *The Quantum Activist*. Amit was also interviewed on the *Joe Rogan experience*. Amit is a spiritual practitioner and calls himself a quantum activist in search of wholeness.

Intention

Ever since I discovered the *Quantum Science of Consciousness*, people have been asking me about my take on the *secret* of how we can manifest our intentions. I am glad that there is now such a book, and I have participated in its writing. For more details on the process of manifestation as well as quantum activism, feel free to read my other books.

But truly, the idea of the book came from Carl. Yes, he says he was inspired by a dialog with me. When he presented me with a good review of all the obstacles people create to block their own intentions from coming true and asked me to add the quantum science of manifestation to it, I was delighted to do my share. Carl and I thought it would be great to get our dear friend Gary as a co-author, so he could add his Constellation healing expertise to the book, which would be the missing piece. The book really became quite complete with Gary's contribution.

7 Questions for Amit Goswami

- 1. What does *Do-Be-Do-Be-Do* mean?** The “Do” is the working part, and the “Be” is the “taking a break” part. You can get better results if you rest in between working. You should work, rest, work, rest, and work.
- 2. Why did you write *Quantum Activation*?** When Carl presented me with a good review of all the obstacles people create to block their own intentions from coming true and asked me to add the quantum science of manifestation to it, I was delighted to do my share.
- 3. What was it like to be in the movie *What the Bleep Do We Know?*** It was a wonderful experience, working with all of those talented and knowledgeable people.
- 4. What is *non-local consciousness*?** Your consciousness is not just located in your head. It is also located outside the body in a field of possibility. Objects communicate without signals, going through space and time travel at or below the speed of light.
- 5. How do electrons move through orbits?** Electrons move from one orbital to another without going through the intervening space. These electrons are in two places at two times but only in a wave of possibility.
- 6. What does *quantum* mean?** It is the science of subatomic particles that we cannot see, but we test they are there very accurately. They take on a completely new reality.
- 7. Do all objects actually move even the solid ones?** Yes, all objects move. On a molecular level, they vibrate. That’s actually the definition of temperature; it’s the measurement of the vibration of molecules.

GARY STUART

Bio

Gary Stuart is a four-time #1 International bestselling author, speaker, and personal development expert for over 45 years. He's been a master Constellation healing facilitator of over 2 decades. Gary has been featured globally on The Dr. Nandi Show for ABC TV also with Bryan Gallo at NBC Palm Springs.

His latest book is *Healing Human History: Constellation Wisdom for the 21st Century*. Gary has also the best-selling author of *A. I. Ancestral Intelligence: Constellation Insights from Beyond* and the *A. I. Guided Journal*. His other Constellation healing books include *Master Your Universe: How to Direct & Star in Your Own Life* plus *Many Hearts ONE SOUL*.

Gary's also the creator of the innovative *Constellation Healing Oracle Cards*. He leads Constellation healing retreats globally with Jill Fischer. Find out more about Gary Stuart by visiting GaryStuartHealing.com and GaryStuartPressKit.com.

Intention

Gary Stuart contributor and co-author of *Quantum Activation*. Two years ago, Amit, Carl and I had an idea over lunch as we spoke of his forthcoming documentary on healing. Being an integrative healer dealing with ancestral consciousness, I wanted to get exploring the subconscious mind-set out to a larger audience in a big way. I also knew that many don't know about Constellation healing, yet I've found it is the fastest way to resolve many of life's problems. Being an author of 9 other books it was perfect timing for me.

Co-writing this book was also a huge opportunity to influence more people in a positive way. A win-win situation, not to mention doing it with my good friend Carl David Blake and Amit Goswami, PhD. Here we are now two years later. I've loved everyone's input and varied approaches to this topic that affects us all. If I've learned one thing at my ripe age of 69, it is that *everything* that *life* gives us is a *gift!* Even the good, bad, and ugly. Another key insight is that *there is no such thing as negativity, only a lack of positive perception*.

We wanted to empower our readers with more choices to change or *get out of your own way*. Amit, Carl, and I took a multidisciplinary approach to educate and find new ways to resolve issues that plague your soul. Negative obstacles we experience in life can present opportunities for change. Obstacles can be the secret energetic catalysts for your personal transformation.

My intention was to make it easier for you to see the template of life behind its *imperfections* that are so bothersome in your day-to-day existence. Ultimately, we want *all* our readers to feel empowered in new ways while being happy on this journey called *life*. The rest is up to you.

Have your popcorn ready for the forthcoming movie of a lifetime that we have planned! Namaste and gratitude to Carl and Amit plus you, our readers too. Gary was introduced to Carl through a mutual friend who is an accomplished drug and alcohol crisis counselor to celebrities. At the time, Carl was beginning his newest documentary, which is currently in pre-production.

10 Questions for Gary Stuart

- 1. Why did you write this book?** I wanted to reach out to the world to educate them on how our old and new collective beliefs influence our current reality.
- 2. What is Constellation healing?** This is the best way that I've discovered to make our subconscious, hidden, ancestral dynamic observable. Once we see what we are in reaction to then we become empowered to make changes.
- 3. What did you learn most from writing Quantum Activation?** The editing skills I have plus weaving other co-author ideas in alignment of my own observations about life in the crazy world. There is chaos built into the order.
- 4. What is 1 unusual insight you brought forth?** One of my personal, deepest insights about life is that everything is a Gift! Even the obstacles too.
- 5. You mentioned in your back-cover quote that an obstacle is a gift?** Yes, would we want to change anything in our life that was not motivated by a negative force? Survival gets activated to find food. Money? Sex? Love? Our species thrives in life by collectively rising to the mission of staying alive. This is true for every species on Earth.
- 6. What's your best advice for people suffering?** This too shall pass.
- 7. You mention in the book 'life' has a price of admission?** Safety, food and shelter first then the biggest one that life demands of us is 'Adapt or Die!'
- 8. You are known as one of the top Constellation facilitator elders?** I was so amazed by the '*multidimensional consciousness*' we all share I realized it holds the intelligence of the entire universe. We can witness the past, present and future simultaneously. Forget *A.I.*, one human brain has more wisdom and knowledge that guides us more effectively than all materialist scientists can put together. Tapping into this universal source or unconscious field, consciously guides me to the hidden secrets of ancestral memory that every human carries. My expertise is seeing and feeling these invisible impulses in a nanosecond and communicating what is necessary for healing.
- 9. You state consciousness is limitless?** Yes, the only limitation is us! Human ego always needs to be right? There is a greater unified source bigger than the physical distraction of duality. That true power operates everything like a precise swiss clock, ever-present yet unseen.
- 10. In spite of the global chaos, do you feel positive about the future?** Every generation feels that their generation is the last that will survive. Yet we're still here times 7,590,000,000 **human** beings? Our species seems to thrive on drama to keep us collectively entertained and excited to be alive!

CARL DAVID BLAKE

Bio

Carl David Blake was born in the Bronx, New York, and moved to Florida to attend college. He obtained a B.S. in Biology and Zoology and an M.A. in Mass Communication from the University of South Florida and is a member of Kappa Tau Alpha National Honor Society for Mass Communication. In addition, he has been a college professor of communications, an SAT instructor, and a college English textbook author with HarperCollins Publishers (*Explorations I: From Sentence to Paragraph* and *Explorations II: From Paragraph to Essay*).

Carl has also written, produced, and directed six independent films. He is also a Guinness World Record Holder for the Longest Wedding Dress Train, which he used during the filming of the movie *Differences between Men and Women*. Carl studied story structure with Robert McKee, who is among the most widely known screenwriting lecturers in the world. He also studied film directing under Steve Mims, who has also taught Robert Rodriguez among many other accomplished directors.

Carl Blake is very pragmatic in his earthly approach to the current problems that plague mankind. Carl has very astute and practical ways to look at situations in belief systems. Carl coined the term the *Bourgeois Effect* to explain the tension to remain mediocre, because of the forces preventing people from obtaining excellence, while miring them in diminishing mediocrity.

Intention

It is an honor to co-author *Quantum Activation* with my dear friends Amit Goswami and Gary Stuart. Amit was the first person who also joined the documentary that I am putting together on the capacity of the human brain. Through pre-production of the documentary, we thought it would be great to write a book on overcoming obstacles. I am also fascinated how science and spirituality interlock and support each other, so I thought it would be a great opportunity to have the world-famous quantum activist (Amit) and the world-renown Constellation facilitator (Gary) combine efforts to write a ground-breaking book with me.

We had many great conversations, I thought to myself that this would be great to bring to an audience. I ran the idea by Amit and Gary, and they were happy to help. As we were writing this book, I noticed some incredible connections from science to the spirit that I had not known about previously. I felt like *Indiana Jones* finding something amazing at each turn. These are both topics we felt could really help people, along with other fascinating topics that we've discussed. It was a lot of work, and I'm proud of what we put together.

My intention for you (*the reader*) is the same as whenever I read a new book, which is to be able to take away some important life-changing ideas that will assist you on your journey. By just writing this book I already have. I want to thank my dearest friends Amit and Gary for going on this amazing journey with me, and to all of you, our readers, may we have the honor to contribute to your purpose and your journey. Namaste!

12 Questions for Carl David Blake

- 1. Can you tell me something about your spiritual journey?** My spiritual journey started by rejecting spirituality. My undergraduate degrees are in biology and zoology. I was a science enthusiast first. I thought only flaky people believed in a higher power. Science will eventually explain everything. My first real experience doing scientific research was working under a graduate student at the University of Florida, mapping out the visual field of a lemon shark. My job was to run the artificial respirator to keep the shark alive, ensuring when he woke up, not to get bitten, as we had to get a few vitals while he was waking up. I was even more amazed at the science of the world. Who put this creature here? I knew something created this planet far beyond my understanding. There is no way that all of this happened by chance. The only answer was to go into the spiritual. It was so difficult to find a spiritual path that was honest. This led me to my own journey. I know many of us are on some kind of journey. I get a deep impression that whatever you came to the planet to do, do it now. We don't have time to waste. I also got an intuitive feeling that this life is much more meaningful than you can imagine. I kept hearing the words in my heart, "Do what you came to the planet to do. This is not an accident. Do not leave this planet without completing your task." I can't verify if everyone has a purpose, a meaning for their life. All I can tell you is that many of us do, and if you do, do it now. This book merges the scientific with the spiritual to give you some critical answers and paths to empower you along your journey.
- 2. What was the hardest part of writing this book?** Today, getting a good developmental editor is the key to writing an effective book. I knew it would be difficult, which is why Gary and I gathered a team of editors and reviewers. We could not have done it without them. Between Amit and Gary, and my knowledge, I not only had enough information to write the book, but enough to verify through all of our experiences what is working and what is not working. Save yourself the trouble of hitting obstacle, after obstacle; read our book and take a shortcut.
- 3. What did you learn about Amit and Gary you did not know before?** Amit understands a lot more than you could possibly know. We need to venerate our scholars. He is a true scholar. Gary brought a side of spirituality that I had not known before, and he validated a lot. He also brought a whole new discipline of Constellation healing to the book.
- 4. What did you learn mostly?** That science and spirituality are under the same umbrella. Often, science can be run by big business more than inquisitiveness of the universe. Spirituality nearly always comes first then science proves it to monetize it. Remember, nearly half of all drugs are some derivatives of compounds found in nature. Monetized science is opposing spirituality.
- 5. What is one thing you wish to let people know before they read this book?** Remove the toxic people from your life. At least know how important

it is and be willing to remove them. Get help if you need it. You deserve a meaningful life. Take that first step.

6. **What's next for you after the book?** I will be directing a documentary on the capacity of the human brain. This is an immensely interesting subject. We have world-renowned scientists from Los Angeles to Europe, who will be speaking in the movie. We have gathered some of the greatest minds in the world for this movie and will be absolutely brilliant.
7. **What was the best surprise of the book?** The book got delayed because of editing and organizing it, and I was annoyed at first. Then, the Deepak Chopra quote came in, which was great. Things happen for a reason.
8. **What is one thing you would like to tell the world?** There is a sense of well-being when a person is in the company of brilliant, kind people who congregate to make the world a better place.
9. **What has changed about you?** It became apparently clear to me that there is a tremendous need for the divine feminine to appear in our culture. There is a medieval saying that protects only divine feminine women. No one else is covered under this covenant. "When a woman cries out with all her heart and all her soul, he will hear her." This is a threat, whether directed towards a man or another woman. Divine feminine women are the closest thing to God. I have a powerful, medieval story to tell you more about this. Maybe in my next book. Remember, 99% of the greatest stories have never been written down, which is why we need all cultures, as no one culture is able to preserve human's wisdom.
10. **What is one thing you would like to tell young people?** Something I notice many young people tell me is that they have no real friends. I was surprised how many young women told me they have friends to drink with, friends to do drugs with, but not one friend with which to discuss important topics. This is a sign of the times. Every epic journey begins with your comrades or meeting your comrades along the way. I believe that one of our goals in life is to shed the zeros and unite with the heroes. They are everywhere in the world. It is not all about you. They need you as much as you need them. Go find them.
11. **What is one thing you would like to tell elderly people?** Do not leave this planet without doing what you came here to do. Do not get caught up in retirement and intellectually backsliding in life. One of the greatest things you can do for your brain, after getting rid of toxic people, is to stay curious. Meet new people. Learn new things. I cannot tell you how many people complain about their town and never leave. I was in that situation for years, and then, I just left. The bravest decisions of your life are often the most important. Be bold as you get old. People will respect you more for it.
12. **Do you have any plans for another book?** Yes, an intense novel. It is now in the works, and the first rough draft is complete. Developmental editing is currently going on, and the book should be ready for reviewing soon.

OFFICIAL PRESS RELEASE

FOR IMMEDIATE RELEASE

Combining Quantum Science, Consciousness, & Spirituality to Unlock Obstacles into New Possibilities!

Rancho Mirage, California, September 3, 2020 – Dynamic author trio Amit Goswami, PhD, Carl David Blake and Gary Stuart have now released their new book, *Quantum Activation: Transforming Obstacles into Opportunities*. This breakthrough new book introduces the essential principles of quantum physics to readers and how they can utilize them to overcome limiting barriers and live life to the fullest. Quantum physics helps people understand that nothing is happenstance and how everything in the universe connects to create the unique reality of each and every person on the planet.

Quantum Activation helps readers tap into the higher consciousness that makes accomplishing new goals a possibility for everyone. By tapping into one's innate pool of knowledge and manifesting it into conscious decision-making, it becomes easy for people from all walks of life to eliminate their limiting barriers and reach their full potential. With Amit Goswami being the pioneer behind the Quantum Science of Consciousness, all three authors combine their creative talents to offer this knowledge in the most comprehensive manner and create a book

that truly packs a punch. The authors help readers understand the true meaning behind what most might consider 'bad luck.' These things can be ancestral patterns' negative karmic energies that go farther back into a person's past than initially perceived. Consciousness becomes a possibility when readers utilize the cutting-edge scientific techniques highlighted in this book.

Amit Goswami, PhD, Carl David Blake and Gary Stuart wanted to create a book that combines scientific research and principles with innate human spirituality in order to harness the best of human tenacity. Together they take on a 'multidisciplinary approach' to teach readers how to manifest their thoughts and feelings in the most creative and productive manner possible. Obstacles can be invisible. The knowledge from this book helps readers develop a full understanding of their own unique obstacles so they can eliminate them from the root. This process of understanding one's own variables opens a person's mind to higher consciousness.

From Constellations for healing and growth to enlightenment via quantum learning, the book serves as an initiation for even the most novice readers to take the Quantum leap and never look back. *Quantum Activation* addresses many of the dysfunctions with modern day society and how various factors have brainwashed humans to accept a reality that is devoid of spiritual growth, learning and fulfillment.

Amit Goswami, Carl David Blake and Gary Stuart are available for interviews.
