

Caring for
HOMEBOUND
patients, one **HOUSE**
CALL at a time!

We are aware that most physicians do not make house calls. There are a large number of people who are homebound finding it difficult to get to the doctor's office. We want you to know that Dr. Maniet and Kelly Lewis still make house calls to homebound patients. If it has become too difficult to get to the doctor's office and you would like your medical care provided in your home, please contact the office to schedule a house call appointment.
