Sanitary Wall Panel

Fiberglass absorbers reduce the reflection of sound waves by adding soft, porous, open-celled materials to an environment. The Sanitary Wall panel is durable, low cost, and virtually rip-proof. The sound absorption core is completely encapsulated in a reinforced Mylar film. The white facing reflects light, which adds to the illumination in a room. Wall panels are constructed with all edges bound and grommets across the top.

- FDA approved
- Washable
- Stain resistant
- NRC rating up to 42.3 per 4’x8’ wall panel

Applications:
- Typical uses include in food processing plants, clean rooms, hospitals, wineries, swimming pools, animal hospitals, and institutional kitchens.

Product Data
- Description: 3.0 lb/ft³ fiberglass core fully encapsulated in a virtually rip-proof reinforced Mylar film.
- Nominal thickness: 1 1/2 inch
- Standard width: 48” wide
- Maximum length: 8’ long
- Temperature Range: -40° to +220° F

Acoustical Performance:
