OF SAN RAMON

City & State Regulations Require Recycling & Composting

Compliance will reduce the amount of material going to the landfill and greenhouse gas emissions.

All multi-family complexes in San Ramon must subscribe to adequate levels of service for recyclables, organics, and garbage.

In addition to complying with the law, many multi-family complexes find that they can reduce costs by maximizing their recyclables and organics services and reducing garbage service.

Visit: www.CalRecycle.ca.gov for more information about the Mandatory Commercial Recycling Ordinances.

See inside for more information regarding how we can help you with compliance!

Does a landscaping company off-haul your yard trimmings?

CalRecycle now requires multi-family complexes to provide written documentation from the landscaper that the material is being hauled to a facility that composts it in order to receive AB 1826 compliance.

- For more information about AB 1826 compliance, visit: www.calrecycle.ca.gov/Recycle/Commercial/Organics/FAQ/#Compliance (Section B-Business; question 49).
