Commercial Customer News

SEPTEMBER 2020

AB 827 - EFFECTIVE JULY 1, 2020

New Onsite Container Requirements

Businesses that sell products meant for immediate consumption onsite must provide recycling & organics collection containers inside their businesses for their customers.

Example of a three stream onsite collection container system.

- Containers must be placed adjacent to trash, be visible, easily accessible, & clearly marked.
- Businesses may use their own signage or they can contact the City of San Ramon or ACI of San Ramon for signage based upon the requirements of their collection service.

Proper Sorting Tips

FLATTEN CARDBOARD

Corrugated cardboard and paper boxes should be flattened and large pieces cut to fit in the bin or cart. Doing so:

- Allows for more room in the container.
- Prevents overflow and litter.

KEEP IT LOOSE!

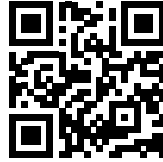

Keep **RECYCLABLES** loose inside your collection containers.

RECYCLABLES in bags (especially opaque/black ones) are treated as garbage and end up in the landfill.

WHEN IN DOUBT...FIND OUT!

For a list of what belongs in each container, visit www.SanRamonSort.com or use your smart phone to scan the QR code at right or on your collection container.

All San Ramon Businesses Must Subscribe to Adequate Service Levels for Recyclables, Organics, & Garbage.

Many businesses can reduce costs by maximizing their recyclables & organics services and reducing garbage service. Visit: www.CalRecycle.ca.gov for more info about the Mandatory Commercial Recycling Ordinances.
