2013-Present	AMI elementary course with Greg MacDonald, Mexico DF, Mexico
Future?	Start Montessori Elementary School for low income families/assist parents raise their Children according to the Montessori philosophy

Course Testimony:

I am filled with hope and, at the same time, responsibility while taking this life changing Montessori training course with Greg MacDonald. His teaching style is clear, organized, thorough, faithful to Montessori (in content and method), very deep and a lot of fun.

What I like best is the great respect he inspires in you for the Child. Every week he opens windows in my mind and in my heart that help me see the misunderstood personality of the Child, and how it can be healed with the correct Montessori approach.

Greg has a great gift to systematize and clearly explain quite complex concepts of the Montessori Philosophy, making everything connect and bringing it to the day to day life in the classroom, and also to show how to present the whole elementary curriculum with hundreds of simple, to the point, fun, somehow magical and very inspiring and easy to incite the Children, presentations (or games, as he calls them). Thanks to his many years of practical experience he can always answer our many questions with very concrete responses -and great tips.

I do hope many more people take up the challenge of this course to be able to assist so many more Children that are waiting to be finally understood and loved and guided the right way (according to their awesome nature).

Please don't hesitate to contact me if you would like to know more details about the course.

Sincerely, your fellow Montessorian,

Montserrat
