ACCESSIBLE EASTER EGG HUNT

Accessibility challenges:

1. **Wheelchairs & walkers:** Difficult to navigate grassy terrain, and often can't easily bend down and pick up eggs.
2. **Blind or low vision:** Can't locate eggs in a traditional Easter egg hunt.
3. **Sensory challenges:** Traditional Easter activities be overwhelming due to the noise and crowds.
4. **Gross motor & cognitive delays:** Very hard to keep up with typically abled kids during an Easter egg hunt.
5. **Fine motor challenges:** Balancing an egg on a wire dipper and gently placing the egg in dye requires finesse and coordination.
6. **Egg allergies:** Risky to dye real hard boiled eggs.

ABILITY UNLIMITED IS NOW OFFERING A PRIVATE PAY OPTION TO CLIENTS

Your therapy team and primary physician have recommended a device or modification for you?

You don't have Medicaid or your primary insurance does not cover the cost of Assistive Technology or Environmental Modifications?

Ability Unlimited can accept private pay direct to us through PayPal Me.

ALL IN ONE DEVICE VIA PRIVATE PAY

Many items can be deemed "**not medically necessary**" by insurance companies and they won't cover the costs. However, these may still be considered medically necessary to your medical team and family.

How many of you have possibly had problems getting the basic iPad with applications directly related to delays, disorders and functionality for you loved one with a recommendation from their therapist and would like to have an option that you would be willing to pay out of pocket for? - An all - in - one option for direct purchase, under \$1000?

An Example of this would be, an AAC Application (recommended by your SLP) installed on an iPad with accessories such as a drop proof case and a wheelchair mount.

Another Example would be Applications for Anxiety Disorder installed on an iPad with accessories such as a drop proof case and cross body strap.

Third Example would be Applications for Autism related issues installed on an iPad with accessories such as a drop proof case and cross body strap.

RESIDENTIAL RAMP OPTIONS

If you don't like the all aluminum modular ramps, or maybe you don't care for the all wood ramp?

There are many options for residential wheelchairs ramps; from wooden ramps, aluminum ramps and even a hybrid ramp!

These ramps do not require a permit for installation because there are no permanent changes to your property, so if you move it can easily be relocated along with you.
