

## Specialist Turnkey Inventory and Manufacturing Software Solutions

Imagine your business being able to improve efficiencies, eliminate manual laborious tasks and reduce overheads all from as little as \$66 per week!

Well now you can and the Opto Software Subscription product is the answer, you only pay for what you use and with 1 low monthly payment you have access to all the features that your business needs to be efficient and productive.

- ✓ Need to contain or reduce your capital expenditure?
- ✓ Require a 'whole of business' solution that doesn't comprise on features?
- ✓ Searching for that elusive 'single point of truth' for all your business data?
- ✓ Looking for an all-inclusive solution that integrates into your accounting system?
- ✓ Choose the features and package that suit you and only pay for what you need?
- ✓ Do you need support provided by real people who use the system every day?
- ✓ Want a flexible solution that can grow with your business with add on modules?

Opto Software already has hundreds of happy customers throughout Australia so you can be assured that you are procuring a solid, proven, all-encompassing software solution that has been built in Australia for Australian businesses since the early 1990's. We can now offer you a tailored solution for your business without the need to outlay large amounts of capital while still benefiting from the powerful feature set and ease of use that Opto Software is so well known for as-well as our legendary support and service.

*"I discovered OPTO by iTMS. I found it too good to be true. It was practical and easy to use. It had everything we needed and was reasonably priced"*

Brad Drury, Director – New Touch Laser

### So how does it work?

Our Subscription based products include Opto Inventory, Opto Manufacturing and Opto Enterprise as well as any additional add-ons products that may be required. Subscription pricing includes all required Software, Licences, Maintenance and Support providing you with an all-inclusive monthly price.

All we ask is that you pay an upfront amount equal to the first 6 months premiums to get started and then from month 7 onwards you simply pay each month for as long as you wish to use the service. If you decide that you no longer wish to use the service you can cancel at any time with just 1 months' notice. All data within the system is your property and we can assist with exporting this data (at additional cost) should you require.

You can even add on modules or implement additional features as your business grows and best of all you only pay the difference in price from the date you have access to the new features. Total flexibility, safe in the knowledge that you have a scalable, regularly upgraded solution that you will not need to replace in the future. All Opto Software products have the ability to integrate into the main accounting packages to ensure a seamless, error free solution for your business.

*“We started off only using a few OPTO modules, but the more we used this program the more we realised the benefits”*

Alan Jenkins, Director – Bruce Towns Engineering

## Why Opto Software

- 100% Australian owned business supporting Australian businesses for over 20 years
- Deal directly with the company who builds the software, no resellers...
- User friendly layout and intuitive workflows that saves time and reduces the learning curve
- Every Opto install is configured for your business to suit your workflows, resulting in a professional turn-key solution for your business
- Be productive from day 1, no steep learning curve or complicated set up to worry about
- Integrates seamlessly into all the major accounting packages
- Industry leading 'live' support provided by Opto staff that use the system all day every day

*“In terms of business results from the OPTO implementation.....Revenue have grown by 24% since implementation – a combination of efficiencies gained and an increase in sales revenue.”*

Matthew Claringbold, General Manager – Vehicle Components
