What is Leadership New York?

Working within an unparalleled network of engaged civic leaders, Leadership New York (LNY) participants develop the skills to succeed in a complex, multi-stakeholder environment. The program uses adaptive leadership and inquiry-based training methods. The ideal participant is a mid-level to early-executive professional committed to expanding their leadership capacity in a cross-sector community.

“

The value I have gained from participating in Leadership New York is the opportunity to engage in leadership training that all too often does not happen for a mid-career professional. I apply what I learned in LNY almost daily. From more effective listening techniques to coordinating better group dynamics on teams, LNY has helped me to better lead in a comprehensive, intuitive and collaborative way.
