Hello everybody. We are here with KAMkids episode one with Ava's friend Zoe. This is so exciting. Ava is going to be doing her first episode with her friend Zoe, I'm gonna let them take it away.
- A** Ava Hurley 00:58  
Okay, hi, it's Ava with Whisk it with flAVA. And today we're here with my friend Zoe.
- Z** Zoe 01:04  
Hi.

A

Ava Hurley 01:05

Today we'll be just you know, hanging out talking, making some good conversations in now getting into all that stuff. First, I'm going to talk about KAM which is kid action makers. It's based on my brother, well, it's named after my brother. Let's start off with a couple questions for Zoe, do you want to raise a lot of money or be like an entrepreneur in your life? And like make your own business and stuff?

Z

Zoe 01:34

Well, right now I'm trying to create a business. So I could save money for a Volkswagen van, which is the car that I really want. Cuz maybe in a few years, I'll start driving.

A

Ava Hurley 01:47

That's a really good answer. I already am a I'm a kid preneur because I own a baking business called Whisk it with flAVA. Next question, what's it like for you during COVID?

Z

Zoe 01:58

we're online school, it's really hard for you to get things done. And you basically learn half as much as you would in actual in person school. Because there's so many distractions around you when you're online, that the teacher doesn't even know if you're actually learning anything. And then if you're in person, that teachers know that you're paying attention, the teachers know that you're doing what you're supposed to that there's no distractions, and that you can actually focus on getting what you're supposed to be doing.

A

Ava Hurley 02:28

And you could be like working on an assignment that you're not supposed to do in when you're online. But when you're doing in person, the teacher will always know what you're working on. Because most of the time when we don't have COVID in person, you do it on paper, but because of COVID and I just went back in person for the second time because it COVID we have to do most of it on computer because we do have a couple kids that do online. My next question is for you is do you already have a business

Z

Zoe 03:00

right now I'm kinda getting in the process of something. Like during the weekends, I do yard work, like outside picking weeds cleaning out garages, and I clean inside people's

houses. I actually used go when it was summertime, I got into it, but no one really wanted me to send it was around where COVID was very popular, and no one really was wanting my business. I only got a few clients at that time. And then since I wasn't getting enough, I had to stop it.

A

Ava Hurley 03:54

And you're doing the business to save up for your Volkswagen, right.

Z

Zoe 03:58

Yes. And I do that the yard work and house cleaning during the weekends. And then during school days as much as I can after school. I make bracelets necklaces, I make pride pins, which my brother helps me on and I made a ton of different jewelry. I make shoe laces and I try and sell those.

A

Ava Hurley 04:22

Well, I would definitely like to have some of those. So the shoe laces are they like do color on them? Do you design them just by white ones, or what?

Z

Zoe 04:33

With the shoelaces I went through my jewelry the other day with a bunch of beads and I found this not the thickest of string but thick enough to be shoelaces string and it's like a sparkly gold, sparkly pink metallic ll purple. And then I went through my jewelry and found these key chains that you could stick together and you could attach them onto your shoelaces.

A

Ava Hurley 04:58

That's cool

Z Zoe 04:59  
Yeah. If someone was buying it, it would be \$1. And then to buy actual key chains to go with it would be 10 cents for key chains. And one shoelace altogether would be \$1.

A Ava Hurley 05:13  
I have a bakery order books for when people want orders of cakes, cake jars, cupcakes, etc. And I was wondering if order book, not bakery, necessarily, but would help you with orders and stuff. So you wouldn't have to like grab sticky note, write it down, keep it on you at all times, not lose it at all. And you can have it in a safe spot. So you won't lose the notebook.

Z Zoe 05:36  
What I'm thinking of doing is I'm thinking of putting this online, I think of going around my neighborhood, maybe you blocks down. And since people might not be comfortable with the fact that I'm too close, or that they are too close to where things are being made. Or they just feel uncomfortable. I'll be wearing a mask, instead of having the bracelets like which would you like to choose from? I'm taking pictures, and I'm making designs, and I'm putting them on a big piece of cardboard so they could choose from instead of picking them and touching every single one.

A Ava Hurley 06:15  
That's a very good idea. You basically just answered my question that I was going to have. Tell me about your life. Do you have any siblings?

Z Zoe 06:24  
I have two siblings, my brother named Caleb and my sister named Ava. I'm the oldest

A Ava Hurley 06:30  
you aren't going to my school anymore. Can you tell me why?

Z Zoe 06:33  
Well, they were doing online for a long time. And it was very hard for me. We went to a different school that was in person even though your school is in person. Now this school is

just reviewing many times of what we've already learned. So it's a little easier for me to process.

A

Ava Hurley 06:50

That's very good. Are you going to still go to that school next year?

Z

Zoe 06:55

We think so

A

Ava Hurley 06:56

these times are very exciting, because you never know what's gonna happen when you wake up the next morning. It could change your life forever. What hobbies do you have? Or what do you like to do during COVID? Not during COVID? Do you do sports that kind of stuff?

Z

Zoe 07:12

Well, right now I do gymnastics My hobbies are whenever I get the time to I like longboarding down my street back in for recently stopped doing flag football. And I've been interested in many sports before like soccer and baseball, little bit at tennis. And so I've done many sports, I do swimming with Ava here. And it's very fun

A

Ava Hurley 07:38

before COVID when I lived in Canada, I did softball, have you ever thought of softball

Z

Zoe 07:42

I have but I thought that since I'm doing gymnastics now maybe that will year or two,

A

Ava Hurley 07:47

that's a very good idea to try and minimize, minimize your time, we are making a planner for 2022. And hopefully we're going to finish it by the end of the year of 2021. And we're looking for people to draw little pictures, big pictures, anything really of equality and people that may might have disabilities or people that might be really unique from others. And we're looking for maybe entrepreneurs, kid preneurs, people that have their own

business, maybe even a lemonade stand and try your best it can be stick figures if you want honestly, as long as it shows something meaningful. It's awesome. And that's okay.

### KAMcastKIDS 08:39

Thanks for listening. Has your kid monetized or thought about raising funds based on a passion hobby or skill? Maybe they've set up a lemonade stand sold baked goods started a podcast, create gifted art, teach kids crafts on social media, graphic design or engineer concepts. We would love to consider them as potential guests on KAMcastKIDS also accepting applications for parents, educators, mentors, entrepreneurs, mental health specialists and youth advisor on the KAMcast hosted by Ava's mom Samara Hurley.
