## SPEAKERS

Ava Hurley, KAMcastKIDS, Luke

- K** KAMcastKIDS 00:01  
Welcome to KAMcastKIDS, we're the podcast for kids by kids. Our hosts and guests bring fun inspiration and motivation as kid and teen preneurs work together with the KAM Project. The KAM Project is the take action movement to inspire influence and impact kids and teens worldwide. Our KAMcastKIDS host is an 11 year old how to Baker social media influencer and CEO of Whisk it with flAVA. She interviews youth facilitates interactive activities and shares tips, creative ideas and advice in developing businesses. Now introducing co founder of The KAM Project Miss Ava Hurley
- A** Ava Hurley 00:42  
Ava here and today my special guest is Luke. So Luke is 12 years old, and he is an entrepreneur. Today we're going to be talking about what Luke does. What do you do in your entrepreneurial business?
- L** Luke 01:07  
Yeah, that's a great question. I do product reviews on tech products and camping gear to help adults find the perfect product for their needs.
- A** Ava Hurley 01:15

That's really cool. I like to camping a lot.

Luke 01:18

Yeah, that's awesome.

Ava Hurley 01:19

Maybe I'll go to you and you'll help me on that. Well, I heard you were homeschooled. How long? Have you been homeschooled?

Luke 01:27

Yeah, so actually, this school year was our first year of homeschool. And it's actually really, it's really awesome. I really like it. And there's there's also like a community to homeschool as well, where there's also other kids that are homeschooled, you kind of go to for advice, and it's really, really cool journey. And I'm loving it.

Ava Hurley 01:50

I've always had a thought in my mind of what it's like to be homeschooled. And I'm like, although I really like going to school with my friends. I want to know what it's like because you would get a lot of free time and you wouldn't stuck in a classroom with like 20 other people.

Luke 02:06

Yeah, that's really awesome. And I find you know, there's it's just really cool. And I really like it. So maybe one year you should check it out and let me know what you think.

Ava Hurley 02:17

Yeah, maybe! Where do you live?

Luke 02:20

So I actually live in Canada, Alberta, by a city about 30 minutes away from a city called Calgary.

A Ava Hurley 02:27  
For four and a half years I lived in Vancouver.

L Luke 02:31  
Oh cool fellow Canadian.

A Ava Hurley 02:33  
Yeah, I wasn't born there.

L Luke 02:35  
Oh, yeah.

A Ava Hurley 02:36  
How's the weather been there?

L Luke 02:38  
It's been very confusing. It's been super hot the past few days, and we've been wearing t shirts. And then tomorrow, it's going to be snowing for four days, and then it's hot again, and then cold. And then it's really all over the place and really confusing.

A Ava Hurley 02:53  
It's staying in the 80s here. It's nice and warm.

L Luke 02:56  
I'm jealous.

A Ava Hurley 02:57  
And just get into the hundreds later on, which is nice.

L Luke 03:01

For right now what we consider hot, it's like 70 degrees Fahrenheit. For us. That's what we consider quite warm.

Ava Hurley 03:08

Normally, everyday the low is about in the 60s.

Luke 03:12

Yeah, that's really weird. Because we can't quite put away our winter stuff yet. We can't fully get all our summer stuff because we don't know where we are yet.

Ava Hurley 03:22

You just gotta listen in on either like on the news, or the weather app on your phone. Do you have any siblings?

Luke 03:31

I do. I actually have a brother. His name is Everett and he's eight years old. And he actually recently just started his own YouTube channel on building Legos and playing Minecraft.

Ava Hurley 03:44

That's cool.

Luke 03:45

Yeah,

Ava Hurley 03:46

so does he have a business? or?

Luke 03:49

Yeah, so that's kind of his YouTube channel is kind of his business where you hopes to inspire other kids. And you loved playing Minecraft and building Lego so he can His goal is

to really help kids, you know, inspire them by making them laugh by building different Legos and making cool creations and showing off what he can do and inspiring other kids.

**A** Ava Hurley 04:11  
Is everyone in your family entrepreneurs, kidpreneurs, or is it just you guys?

**L** Luke 04:17  
Really my whole family's entrepreneurial my dad, he's entrepreneurial. He's really who got me started into entrepreneurship. I'm obviously entrepreneurial. My brother's entrepreneurial. Even my mom, she she's really supports us and she does forex trading as well. And yeah, so we're all kind of in the entrepreneurial family.

**A** Ava Hurley 04:36  
It's the big entrepreneur business family.

**L** Luke 04:40  
Yeah,

**A** Ava Hurley 04:40  
I heard you like manage social media.

**L** Luke 04:43  
I do.

**A** Ava Hurley 04:44  
So what type of social media do you manage like Instagram?

**L** Luke 04:48  
I really do. All social media. My big four as I do Facebook, Instagram, I am getting better at Twitter, but my three is Facebook, Instagram, and recently TikTok, which I've been kind

of playing around and seeing what it's like on there. And it's actually really cool.

**A** Ava Hurley 05:04  
Yeah, I was on TikTok for a little bit, but I deleted it just because

**L** Luke 05:08  
it's really cool platform. But I think the one thing I've been trying to do myself is time management with it, because it can be sometimes a distraction on it, because it's like,

**A** Ava Hurley 05:18  
it can be very addicting.

**L** Luke 05:19  
Yeah, if you're like, oh, but what's next video going to be on YouTube? It's, I find it can still be distracting, but it's not as distracting because you know what video is going to come up next on tik tok, you don't know. So you just keep scrolling, hopefully to find a good video or something. But

**A** Ava Hurley 05:35  
yeah, and you can also searched someone up for go on there forever.

**L** Luke 05:39  
I know I find YouTube to give a little bit more value sometimes in learning

**A** Ava Hurley 05:44  
how did you get into reviewing the products or doing camping products.

**L** Luke 05:50  
Age four, I got my first little point shoot camera, it's actually just over the ledge over here. And that was like my first camera. My dad actually gave it to me. That was kind of what started off because of that he actually gave it to me while we were camping. And I went

over and took a whole bunch of pictures. And I was fascinated by what it could do. And it was that's kind of what kicked it off. And then my dad really started to inspire me then at eight years old, I grew a really big passion for technology. Because people were like, you know a lot about tech. And I'm like, Oh, yeah, actually do and then I kind of was really fascinated about that. And so I was like, why don't I start a business on helping adults and kids find the perfect product for their needs. So if they're going camping, I can tell them? What tents to bring for different situations with backpacks with camping stoves, or, you know, if they're tech what headphones to get to what computers or whatever to get. And that's kind of how it started for me.

Ava Hurley 06:46

Yeah, that's really cool. How you're fascinated by that stuff.

Luke 06:49

Thank you.

Ava Hurley 06:50

Do you have a favorite type of technology that you use a lot?

Luke 06:56

I would say other than like my computer? That's a good question. Actually. I've been listening to lots of podcasts recently, I was listened to all of the KAMcastKIDS podcast, and it was really good.

Ava Hurley 07:08

Yeah.

Luke 07:09

And I pray I have to see, my second favorite kind of piece of technology is my headphones, because I can really do so much with them. I can go on calls like this and listen to podcasts and listen to videos. And really, they're just really cool. Yeah, that's probably my second.

A Ava Hurley 07:25  
Thank you for listening to my podcasts

L Luke 07:27  
They are really good.

A Ava Hurley 07:29  
I know you like technology, and like camping. But do you have any other hobbies?

L Luke 07:34  
Recently, I've actually tried to begin into other hobbies except for technology and camping even though I love that stuff, is I've actually been getting into RC cars or radio controlled cars. I have well kind of an off road or one that can go on gravel logs. And I really like it because if it ever breaks, which I has done before I can go in and we can spend a few hours fixing it up and building it and watch it over jumps again. And that's kind of been my little hobby that I do other than my business.

A Ava Hurley 08:05  
Do you play any video games? Or

L Luke 08:08  
I do some my brother's plays a lot more video games than me every once in a while maybe play a little bit of Minecraft with him if he asked me, but I'm not super huge into video games.

A Ava Hurley 08:18  
I play a lot of video games. Yeah, they're pretty awesome. Yeah, it's super cool how people can just like make their own app and put it on a store like that you can do with podcast,

L Luke 08:27  
yeah!

A Ava Hurley 08:28  
or like people do with their businesses. But you can just like put it on a store that everyone can use on their phones, or like their tablets, iPads, computers. And it's just cool how you can just download it, and some cost money. But most of them are free.

L Luke 08:45  
It's cool to see really like. I mean, there's some games that have been become really popular. But they've been out for years, no one's discovered them. And it's kind of cool to watch it all and just blow up because someone found it all of a sudden, they got suggested on the app store like, this is really cool. And then they tell their friends this is really cool. And then their friends tell their friends. This is really cool and all of a sudden just everyone knows about this,

A Ava Hurley 09:07  
like among us.

L Luke 09:08  
Yeah,

A Ava Hurley 09:09  
that's it was two years old. I think almost three years old.

L Luke 09:12  
I think the first beta version came out was it in 2016. And then it was actually generally it was actually released to the public in 2018. But it's crazy how it's been out for that long. And then actually, it started to explode as someone found it. And then that became really popular.

A Ava Hurley 09:29  
Someone just found it I think August or September and then all of a sudden I was just YouTube with my friends and I were like, oh, I've seen so many of these man's videos. Maybe we should download it and check it out. And then we downloaded and we were like obsessed with it for like a month and a half or two months and then I have it on my

phone. I just look at it for like 10 seconds and then like meh and then I go to a different game.

L Luke 09:51

I know I used to play it a lot with my brother too, but for some reason just after Well, I think they need to make some sort of update to it to make it exciting again.

A Ava Hurley 09:59

Because you All the tactics and all the things that people are going to do and what you're going to do.

L Luke 10:04

Yeah!

A Ava Hurley 10:05

what are your favorite products on like camping gear and stuff.

L Luke 10:09

There's this one company that makes some of my favorite products. That's called Coleman. And they make really cool products because I've been a fan of them since I was like five years old and they make tents and stoves, and backpacks and a whole bunch of different camping gear. They're really their main things is oil make light lanterns living there first never made the logos lantern. That's probably like my favorite camping gear company. I just for some reason really like it. My grandpa he had an old Coleman stove I have it and it's actually my main stove. I used to go camping. I think it's 45 years old now and works perfectly fine. So I like Coleman products.

A Ava Hurley 10:48

Wow, that's old. It still works really well. Do you have any favorite places where you like to camp

L Luke 10:54

I actually like camping there's quite a few places that we like to camp actually quite near

our house only like an hour away. Kind of around this area. We actually moved here recently. We used to live like four hours away now we moved here and so it's nice that we're actually closer to where we like to camp all the time. So that's like kind of exciting thing for us.

 Ava Hurley 11:13  
Have you ever been to Revelstoke or Lake Louise?

 Luke 11:16  
I've been to both of them actually Revelstoke. I went to the three years ago and it was super cool.

 Ava Hurley 11:22  
I think I went there about three years ago too.

 Luke 11:24  
And then I went to Lake Louise is actually like 45 minutes away from me.

 Ava Hurley 11:29  
Really? It was

 Luke 11:30  
Yeah.

 Ava Hurley 11:31  
twelve hours from us.

 Luke 11:34  
It's a cool place Lake Louisa like the water is so blue and cleared.

Ava Hurley 11:39

I think we went ice skating on the lake.

Luke 11:41

That's cool. I've never actually went ice skating on there before.

Ava Hurley 11:44

Yeah. And then the place we were staying at had like the ice benches and then the ice maze. Kind of cool. I going skiing. Do you like ski?

Luke 11:57

I've actually never went skiing before we were going to go this year, but we never actually went

Ava Hurley 12:03

well. You definitely should go. Maybe if it's still snowing or if it's not the next time it snows a lot. Yeah. And you should definitely go skiing or maybe you're a snowboarder. I really like skiing.

Luke 12:15

Yeah, I really want to try it out. I think it would be fun.

Ava Hurley 12:17

Normally on my podcast, I just like to ask a lot of random questions. Do you have any car that you want when you learn to drive? That's a good question.

Luke 12:27

I really loved one day. I saw it on the street one day, it was a Porsche but it was my favorite color, which is teal, as a teal Porsche, and it was it was on the streets and I thought it was really cool. So I'd probably be like my dream car to get because it was my favorite color. And I like Porsches.

A Ava Hurley 12:44  
My favorite color is blue. I like all shades of blue. But mostly the lighter shades like feel and stuff. Have it right here.

L Luke 12:51  
Yeah, that's been my favorite color since forever. I can remember. Yeah, that's why I was like, hey, logos is my favorite color as well. That was pretty cool.

A Ava Hurley 13:00  
My favorite color live in like five bedspread is from like a really light blue. Like maybe this color.

L Luke 13:07  
Yeah.

A Ava Hurley 13:07  
To a dark blue. Like darker than that one.

L Luke 13:11  
Oh, yeah.

A Ava Hurley 13:12  
It's fuzzy on the inside

L Luke 13:13  
Cool.

A Ava Hurley 13:14  
What's your favorite food?

L Luke 13:16  
My favorite food is burgers. Actually.

A Ava Hurley 13:19  
I think I'll get cheeseburgers tonight.

L Luke 13:22  
That's awesome. make me jealous.

A Ava Hurley 13:24  
Yeah.

L Luke 13:26  
craving burgers now.

A Ava Hurley 13:29  
Yeah, I love a good ol cheeseburger.

L Luke 13:31  
Yeah.

A Ava Hurley 13:32  
Do you have any favorite desserts?

L Luke 13:34  
I like cookies? I really like cookies,

A Ava Hurley 13:36  
I like cookies too? Do you like cheesecake?

L Luke 13:38  
I do. Actually. Yeah.

A Ava Hurley 13:40  
My brother's favorite dessert, I think is cheesecake. Because whenever we go to Cheesecake Factory, we always get same old cheese cakes. He's never changed it. I don't think the whole time when we go there almost every year for our birthdays only got that specific cheesecake and he didn't get any other Tuesday. He doesn't even try. He just gets that cheesecake.

L Luke 14:03  
Sometimes like a special night every month where we go and get burgers and there's like so many different things on the menu. And it's like different types of burgers and stuff. And I got like the exact same burger with the exact same stuff on it. And like the exact same thing

A Ava Hurley 14:17  
for a while. I always got the same food at the same restaurants. But then maybe last year, I started opening up the new food at the same restaurant. Like do you have a Red Robin near you

L Luke 14:29  
I don't actually know for sure. I've never searched it up. We might.

A Ava Hurley 14:34  
They have amazing burgers and they're my favorite burger place. I always got the mac and cheese in my brother's like it's a burger place. Why aren't you getting the burger place? And I'm like, Well, I don't really like those burgers. And then I actually had one once when I was like older, and I'm like, Oh, these are amazing burgers. We're gonna get these.

L Luke 14:58  
Yeah, so check it out.

A Ava Hurley 14:59  
Yeah, it's really good. Do you like it Where you live?

L Luke 15:02  
I do

A Ava Hurley 15:03  
yeah, I liked Canada? It was cold though

L Luke 15:07  
The one thing I don't like about here is that there's even though, where we used to live, there was less snow. It was more of like it was more fields and stuff. And now here there's even more snow even though I like snow. But I like it when it's cold. And then once it starts to get warm, I want it to stay warm. Not it's changed like 10 times now from cold to warm, cold, warm and cold to warm

A Ava Hurley 15:32  
yeah, I like, well, I love the snow. But I just don't like cold that much,

L Luke 15:38  
Me either.

A Ava Hurley 15:39  
I just know. And I like it when I breathe outside. It's like puffy and white. And you can see it.

L Luke 15:46  
Yeah,

A Ava Hurley 15:47  
but then I don't like it when it's so cold. Because I like to be in a bathing suit, chilling at the pool or at the beach. And just being able to run around outside and not having to like sit

inside and watch the snow fall down. Even though it's really pretty.

L Luke 16:02  
Yeah.

A Ava Hurley 16:03  
Hmm. Do you like making snowmen?

L Luke 16:06  
I do we actually made me my family one night, we're having a little conference known as pretty cool. And we're making snow men. And my dad, like really pack them down super hard. And they're like super big. Like, they're like 10s. They're like, it was way bigger than me. And they stay there actually still, there's a little bit left of them. And they've been there for the last three months without melting. You know, it's gotten super warm. And then they started to get like, really weird looking. But they're still a little bit at the bottom of them. And it's been like we built them back in was at the end of November.

A Ava Hurley 16:40  
And it's April.

L Luke 16:43  
So that's even longer, like four months, almost.

A Ava Hurley 16:45  
March, February, January. So the end of November.

L Luke 16:50  
Yeah. So like,

A Ava Hurley 16:52  
So almost five months.

L Luke 16:53  
Yeah, that's crazy.

A Ava Hurley 16:55  
That is my snowman when I built them. They lasted like, maybe five hours. And then they just melt. And I'd be sad because they get all weird looking. And then they just go away. And I'd be like my, my work of art my creations. It's gone forever. I know that. It's nice when there's lash. No, because you could just build the back up again and make another one.

L Luke 17:23  
Yeah.

A Ava Hurley 17:25  
Thank you so much for letting me interview you.

L Luke 17:29  
Thank you so much for having me on. It's been a pleasure.

A Ava Hurley 17:32  
You're welcome. And how can we find you online,

L Luke 17:35  
you can search up my YouTube channel, which is called Luke's view. And from there, it should have my contact information and all my videos and all that.

A Ava Hurley 17:44  
I will definitely search you out.

L Luke 17:45  
thank you.

A Ava Hurley 17:46  
Okay,

L Luke 17:46  
I subscribe to your podcast.

A Ava Hurley 17:48  
Thank you so much.

L Luke 17:49  
Thank you.

A Ava Hurley 17:50  
Thank you so much.

K KAMcastKIDS 17:52  
Thanks for listening. Has your kid monetized or thought about raising funds based on a passion hobby or skill? Maybe they've set up a lemonade stand, sold baked goods started a podcast, create gifted art, teach kids crafts on social media, graphic design or engineer concepts. We would love to consider them as potential guests on KAMcastKIDS also accepting applications for parents, educators, mentors, entrepreneurs, mental health specialists and youth advisor on the KAMcast hosted by Ava's mom Samara Hurley. Visit [TheKAMProject.org](https://TheKAMProject.org) to apply for a spot on KAMcastkids. Remember to follow us on Facebook, Instagram and our YouTube channel.
