SSI POS to Provide the Lodge With 100% Cashless Functionality

Innovative Solution Includes Seamless Integration to SYNKROS, from Konami Gaming, Inc.

Warminster, PA, July 14, 2021 (Newswire.com) - Signature Systems, Inc. (SSI), a acclaimed technology solutions provider that excels in point of sale solutions for F&B and retail entities of all concepts and sizes, is proud to announce that **The Lodge Group**, a multi-unit restaurant/gaming corporation, will be harnessing the power of SSI POS to provide 100% Cashless functionality in all of its Las Vegas, NV locations.

With seamless integration to SYNKROS®, an acclaimed casino management system from Konami Gaming, Inc., SSI's innovative, value-added products and services will allow The Lodge to measurably enhance the guest experience, elevate guest spending and casino revenue, and ensure player loyalty.

"Cashless and contactless are all the buzz right now--and it's not going to fade away," says Adriane McGrath, Director of Business Development for Konami Gaming, Inc. "Providing a seamless experience as it relates to using the same wallet at the slots, tables and ancillary outlets on the property is both extremely convenient and measurably successful in terms of on-site spending and guest retention."

The Lodge will also be taking advantage of SSI's enterprise mobile reporting for real-time dashboard analytics and a suite of all-encompassing reports. "From most anywhere, we'll be able to assess the 'health' of our 19 locations and obtain a comparative analysis, exclaimed Ranae Holmes, The Lodge's Director of Finance. "We can even gain insight into our entire enterprise from a single view, which measurably streamlines the auditing process. For us, that's incredibly meaningful!"

About Signature Systems (SSIpos.com)
New to the casino vertical, but with deep roots in F&B, SSI is a 34-year tenured technology solutions provider whose signature product is SSI POS, a top rated, all-concept point of sale system. SSI differentiates itself from all others by virtue of its all-in-one, custom solution sets; all-in-house, domestic teams (including development, 24x7x365 support and data/cyber security); and all-in-accountability for prompt, accurate issue resolution.

Products & services include natively integrated enterprise reporting mobile app, natively integrated "In-Place Dining" mobile app, natively integrated online ordering, full PCI compliance, comprehensive menu management, RESTful APIs with full documentation, expert project management, and much more.
