

Signature Systems to Provide Wildwood Casino With Enhanced EMV Tablet & POS Functionality

Innovative Solution Includes Seamless Integration to Aristocrat Oasis

Warminster, PA, July 15, 2021 (NewsWire.com) - Signature Systems, Inc. (SSI), a acclaimed technology solutions provider that excels in point of sale solutions for F&B and retail entities of all concepts and sizes, is proud to announce that **Wildwood Hotel & Casino**, the "Highest Casino in the World," will be harnessing the power of SSI POS to provide enhanced EMV tablet and POS functionality to its ever-growing F&B enterprise.

With seamless integration to Aristocrat Oasis, a multiple award-winning casino management system, SSI's innovative, value-added products and services will allow Wildwood to measurably enhance the guest experience by allowing seamless, secure, and compliant mobile transactions and room key services to their players and guests.

Wildwood will also be taking advantage of SSI's enterprise mobile reporting for real-time dashboard analytics and a suite of all-encompassing reports. From most anywhere, Wildwood management will be able to assess the 'health' of its enterprise and measurably streamline the auditing process.

"SSI's highly scalable, ultra-rugged tablet POS with built-in EMV functionality will allow us to elevate our guest services," explained Wildwood general manager Matt Andrighetti. "And by adding a SIM card with cellular service, we can ensure uninterrupted processing whenever our Wi-Fi connectivity falters."

About Signature Systems (SSIpos.com)

New to the casino vertical, but with deep roots in F&B, SSI is a 34-year tenured technology solutions provider whose signature product is SSI POS, a top rated, all-concept point of sale system. SSI differentiates itself from all others by virtue of its all-in-one, custom solution sets; all-in-house, domestic teams (including development, 24x7x365 support and data/cyber security); and all-in-accountability for prompt, accurate issue resolution.

Products & services include natively integrated enterprise reporting mobile app, natively integrated "In-Place Dining" mobile app, natively integrated online ordering, full PCI compliance, comprehensive menu management, RESTful APIs with full documentation, expert project management, and much more.
