**NOTE:** *Emissions may be point source or fugitive.*

**\* NOTE:** *This Table should not be considered a comprehensive list but is to be used to provide examples of industrial categories.*

**\*\* NOTE:** *The following examples are not limited to the Class indicated on the Table. The categorization of a particular industry will vary with the specifics of the case.*

**SOURCE:** *The criteria for categorizing industries into Class I, II or III are derived from Ministry experience and the investigation of complaints related to industrial facilities.*
