

## Executive Assistant

Umbra Lab, Inc. is a Santa Barbara, CA space company developing next-generation space systems. We are looking for mission driven professionals to join Umbra Lab. Join our team to embark on an exciting, innovative and meaningful career. Every team member can have a significant and essential impact, and career growth is unlimited. The commercial remote sensing industry is experiencing meteoric growth – this is a chance to change how humans and machines use data from space.

We are looking for a talented, driven professional to work closely with senior-level management as an Executive Assistant. This key position will be responsible for providing high-level executive, administrative, and organizational support to the President. The Executive Assistant position will perform immediate functional and administrative activities, including business task coordination with the President and CEO, office administration and organization, general clerical duties, and facilities management.

Candidates must be excellent communicators and possess general technological and mathematical abilities. Candidates must also be highly organized, responsive, and task-oriented, with meticulous attention to detail. The ideal candidate is a strong team player who thrives in a collaborative setting and works well with individuals at all levels of the organization.

## Key Responsibilities

- Coordinate and implement office policies and processes, including logistics and facilities management.
- Employee acquisition, onboarding, and benefit management.
- Administration of office filing system.
- General accounting, payments and reconciliation in accounting software.
- Scheduling and tracking of critical dates.
- Document control, review, and editing.
- Participate in customer acquisition and CRM management.

## Qualifications

- 2+ years of professional experience as an executive assistant or a similar role.
- Proficiency with Microsoft Office and GSuite (Gmail, Google Calendar, Google Drive) required.
- Proficiency with accounting software products such as Paychex Payroll, QuickBooks Online, QuickBooks Pro, Xero and/or other accounting software a plus.
- Excellent business-level communication skills (both written and vocal).
- Proactive, responsive, self-motivator who will anticipate needs and find creative solutions.
- Ability to multi-task and juggle multiple projects simultaneously.
- High degree of integrity and discretion.
- Highly organized and task oriented.
- Comfortable working in a dynamic and fast-paced development environment.

## Additional Requirements

In compliance with federal law, all persons hired will be required to verify identity and eligibility to work in the United States and to complete the required employment eligibility verification form upon hire. All persons hired will be required to be a U.S. citizen, a lawful permanent resident of the U.S., or protected individual as defined by 8 U.S.C. 1324b(a)(3), or eligible to obtain the required authorizations from the U.S. Department of State.

## Benefits

- Professional Work Environment
- Flexible Vacation / Paid Time Off Policy
- Medical, Dental, Vision, 401(k)
- Stock Options
