

Michigan and TEFCA

- Existing Network of Networks model
- Capability to become QHIN
 - Meet Minimum Required Terms and Conditions
 - Meet QHIN Technical Framework
- Trusted legal framework in place
 - Could support development of national common agreement
 - Could continue to operate framework within HIN
- Able to support exchange formats
 - Query
 - Push, Message- Delivery

Michigan and TEFCA

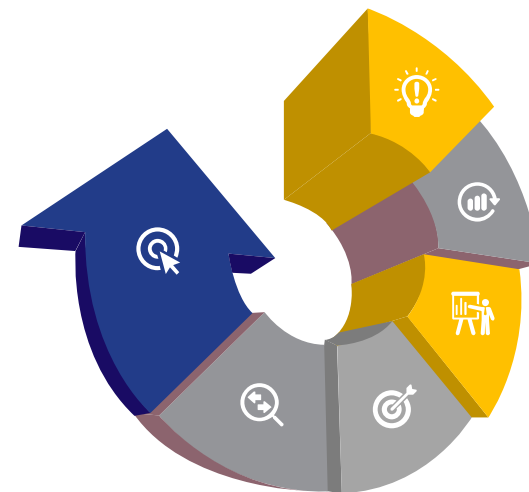

What is missing?

- Conflict of laws guidance
- Clear roles and responsibilities
- Guidance of voluntary participation versus mandatory compliance
- Direction on how national collaboration with RCE and QHINs work

Michigan and Behavioral Health

- Participating in national dialogue concerning the sharing of behavioral health behavior
 - HIPAA Request for Information (RFI)
 - Changes in 42 CFR Part 2
- Determining what we have done in MI and what we can do in future
 - Aligning Michigan Mental Health Code with HIPAA TPO exceptions
 - Development of behavioral health use cases
- Guiding industry best practices
 - Electronic Consent Management Service (eCMS)
 - Building solution that can be scaled in TEFCA
- Patient and Provider Education

Looking Toward the Future: Innovation

- How to leverage Artificial Intelligence in the future to determine innovative solutions
- Develop and participate in experimental use cases to solve key areas in the opioid epidemic
