

## TRSA V4 Series Cleland Long Course Notes.

Start and finish here, at gate 30, the beginning of Longridge track at the Cleland car park.

Stay left at the first Y junction and run all the way down Longridge with no turns.

Head up the hill at the bottom to the lookout, go around the tree with the park bench and back up Longridge (red in the picture below)

Turn left to go down Telegraph (yellow), it has no signpost but is the only track on that side of the ridge in that location.

Turn left at the bottom of Telegraph onto Chambers Gully Track and head down approx 700 metres and turn left onto Chambers Gully Hiking Trail (commonly known as the goat track). No Turn offs until you get back up to Longridge where you will go along Longridge for 250 metres and turn right down Winter Track. At the bottom of Winter Track turn left onto Pengana Spur Track. (This is all the blue line in the picture)

TRSA V4 Series Cleland Long Course.

Stay on Pengana Spur Track (blue) all the way to the end and turn right onto Perimeter Track (green). Turn left onto Bilba Track (pink) and head up the hill and DO NOT turn right onto Robins track, go past it and turn right at the bitumen road. Head up the road to the water tanks on the left and turn left down the bitumen road after them. Immediately on the right you will find the entrance gate to Wine Shanty Track (you can also follow the Yurrebilla Trail signs on the pink section)

Stay on Wine Shanty Track (red) all the way until its endpoint at the Gate 6 convergence adjacent Greenhill road.

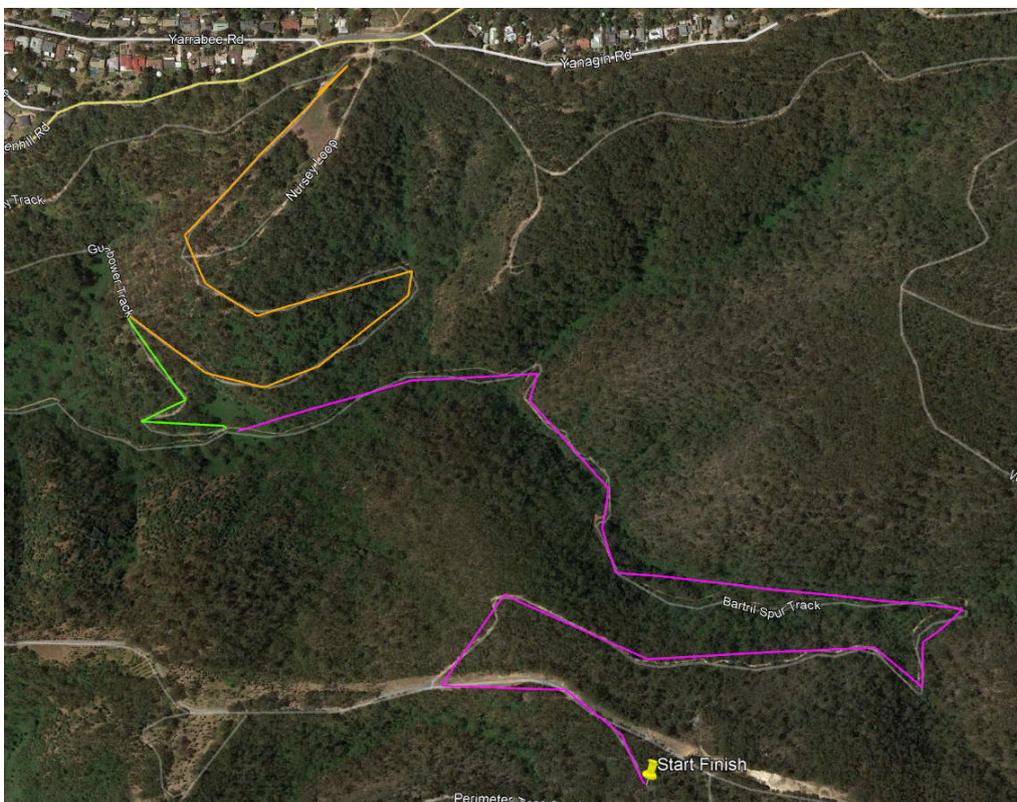

At

TRSA V4 Series Cleland Long Course.

The convergence is easily recognisable with the large electricity tower. You then need to take Chambers Gully Track (blue) first and then almost immediately you will see the left turn for Gunbower Track (orange).

Head down Gunbower Track (orange) and then turn left onto Kirrang Track (green), follow it to its endpoint and turn left onto Bartril Spur Track (pink). Head up and around and turn left at Longridge where you will head up the hill for 300 metres and then turn right at the fork and back to gate 30 and the start/finish point.
