

# Term Camp Opening Day Drop-Off Procedures Camp Alleghany for Girls

*On Opening Day, please follow the procedures outlined below:*

- Campers traveling by car should be dropped off between 11:00am and 4:00pm on the first day of the term. We will not be able to let any families in before 11:00 a.m.
- The buses usually arrive between 1:30pm and 3:30pm on opening day; please keep this in mind as you make your travel plans.
- When you reach the Camp Alleghany parking lot, stop at the green cabin and check in with a counselor, who will point you in the direction of where to unload your car
- Drive to the opposite end of the parking lot where your luggage will be unloaded onto a trailer
- After unloading, find a parking space on the way back toward the entrance to camp
- Your daughter's luggage will be taken across the river separately and dropped off at her tent (the ACA requires that luggage and people must go across separately; we thank you for your patience).
- All luggage will get to the tents, it may just take some time.
- If you wish to help your daughter make her bed, please pack her linens in a separate carry-on bag that you can carry across the river.
- Before crossing the river, your daughter's temperature will be checked, she will be screened for lice, and you will be asked a few questions regarding her current health as well as her health over the school year.
- All campers must be IN camp by 4:00 p.m., so please plan to arrive no later than 3:30, if not earlier.
- All parents must exit Camp Alleghany by 4:30 p.m. at the latest.
- For the safety of all families and Camp Alleghany staff members in the parking lot, please strictly adhere to the counselors' directions.
- Should there be a change in plans that would affect your arrival/departure, you will receive an email or a phone call from one of the directors prior to arriving at camp.

*Once inside Camp Alleghany, please follow our structured procedures with the guide of the counseling staff to help you:*

- Your family/daughter will be greeted by a counselor who will walk you to the Store if you would like to make a stop there if you would like to purchase any items for your daughter.
- The counselor will then lead your family to the Infirmary where you have 2 options:
  - If your daughter has medication to drop off or you need to discuss any concerns with the doctor, you will go IN the Infirmary;
  - If you don't have any medications or any need to talk to the doctor, you will stop at the tent OUTSIDE the Infirmary.
- After this the counselor will lead you to your daughter's tent where she will meet her own counselor and tent mates!
- Once settled, you are free to leave camp and let the fun begin!
