Sagebrush Studio, LLC

I have worked with Shawn Benjamin for over 10 years on various community projects. When the So. AZ Veterans and First Responders Living Memorial project made the decision to proceed with this one of the kind memorial in AZ, we determined three characteristics were needed to engage an experienced social media manager: 1) skills to get the web and other social media done, 2) maintain all sites, and 3) be a person of the highest integrity. This last is especially important because of the often sensitive information sent electronically, e.g., personal phones, donations, etc.

We found all three in Shawn Benjamin. Over the years, I have come to have both personal and professional respect for her ability to work collaboratively in the community and with her peers, ensure respect for her skills and for her integrity.

I believe she will be an asset to any organization. Her experience in law enforcement, community work, fire safety and attention to detail brings a critical broad perspective. As a former senior manager of the Boeing Company, she has my strongest recommendation.

Sincerely,

Kay Williams
