

FORMVERSE and INFOESTRATEGICA ENTER INTO PARTNERSHIP TO DELIVER FORMVERSE ENTERPRISE AUTOMATION PLATFORM TO LATIN AMERICA

April 2, 2019

Calgary, Alberta, Canada, Pleasanton CA, USA & Mexico City, Mexico – Today, FORMVERSE, Inc. and Infoestratégica announced a partnership that will allow Infoestratégica to distribute FORMVERSE's patented no-code Enterprise Automation Platform (EAP) to their clients in the Latin American Market. Infoestratégica plans to work with FORMVERSE to expand the functionality of their existing products including SARIP, an integral solution for Document and Archives Management.

Infoestratégica, located in Mexico City and Bogota, is one of the largest Document and Archives Management vendors in Latin America. Infoestratégica CEO, José Luis Ascárraga, says that Infoestratégica will work with FORMVERSE to provide support for their Latin American SARIP customers by adding FORMVERSE's powerful automation capabilities to their current product offerings.

"We are very excited at the opportunity to add FORMVERSE's intelligent automation functionality to our products like SARIP! We are very impressed with the FORMVERSE Enterprise Automation technology and believe it will greatly benefit our customers," said José Luis Ascárraga, Director General, of Infoestratégica. *"FORMVERSE will help our customers automate the flow of documents and archive records into and out of SARIP, adding a lot of additional value!"*. *"Combine that capability with the ability to create configurable applications that fully-integrate data and attachments with our customer's other enterprise applications and we feel there will be many ways that working with FORMVERSE will help our customers!"*

Combining FORMVERSE's Enterprise Automation Platform with Infoestratégica's SARIP Solution and Latin America IT industry expertise is a big win for Infoestratégica clients. As both a FORMVERSE Certified Partner and provider of their own innovative software products, Infoestratégica can now provide customers with an even wider array of enterprise solutions.

"We are extremely pleased to have Infoestratégica as a partner. Corporations and Governments in Latin America need the kind of sophisticated functionality that FORMVERSE EAP and products like SARIP can provide. Having such a quality and experienced team led by José Luis will help Latam customers immensely! Infoestratégica's local presence will provide customers in Latin America with the exceptional experience that FORMVERSE is known for and be a great extension of FORMVERSE's commitment to our customers worldwide." said Drake Deininger, Executive Vice President of FORMVERSE in Pleasanton, CA.
