

Using Legal Analytics® for Early Case Assessment

Quickly getting a handle on issues that may result in litigation is critical to your company. As soon as a new matter emerges, you need to determine potential strategies, assess the risks, costs, time to resolution, and anticipated outcomes.

With Lex Machina, you can quickly uncover strategic insights on how to approach a case, learn more about the players, or how to defend against legal action. Our unique *Legal Analytics Apps*, allow you to analyze new matters quickly and easily, with our *Early Case Assessor*.

Early Case Assessment

Lex Machina's *Early Case Assessor* enables you to quickly assess the threat posed by a new case. Simply enter the name of the plaintiff and their law firm and immediately get an overview of their litigation history. Did they recently file claims against other parties? Where do they typically file suit? How much experience does the law firm have and what kind of clients do they typically represent?

Anticipate Litigation Speed

As you assess a new matter, you can use *Legal Analytics* to set, and justify realistic litigation budgets by viewing time to termination and time to trial in specific courts and comparing them to other jurisdictions. Timing analytics give you the ability to determine how long it may take to litigate your case.

Select Outside Counsel

Legal Analytics can help you identify potential law firms based on the criteria of your choice, including types of cases, subject matter expertise, experience with specific courts and judges, and more. See how many open cases firms or individual attorneys have.

You can quickly and effectively analyze client list, caseload, and litigation performance of any law firm or lawyer. Uncover insights such as their track record for the number of days it took from filing to trial, termination, or claim construction hearing; the motions filed in similar cases and whether they were granted or denied.
