

Exigent is transforming the way **you** do legal

We are a global alternative legal services provider operating at the intersection of law, data and technology. With a team of over 400 attorneys, business analysts, developers and consultants, we apply analytical thinking, smart use of technology and inventive talent to deliver answers that impact every aspect of your business performance.

We believe data is the greatest untapped resource in your company. With Exigent's contract management solutions and data analytics tools, we give C-suite, in-house Counsel and law firms insight and predictive information on how to minimize contract risk, improve compliance, mitigate revenue leakage and control costs.

Our services

LEGAL

Exigent's skilled legal professionals offer the support which corporate legal departments and law firms need so that their staff focus hours on higher value tasks:

- Legal services
- Immigration
- Medical legal services
- Talent acquisition
- Outsourced legal administration

CONSULTING

Our experts understand your business. We combine powerful data tools with our expertise so that we give you actionable insights, and guide you through how this information can mitigate risk and drive commercial value for your organization. Our consulting services drive optimization in:

- Legal Department Structure
- Legal and contracting processes
- Risk assessment and mitigation
- Data privacy regulation
- Analytics strategy and implementation

TECHNOLOGY

Our technology solutions offer practical and powerful tools that paired with the right people turn data into a smart asset that can create opportunity and value, and include:

- Contract management software
- Document creation software
- Legal spend and matter management software

DATA MANAGEMENT AND ANALYTICS

With a comprehensive data and analytics strategy, we have the in-house skills and capabilities to turn your data into insight you can use to save costs, mitigate risk and settle cases. We offer bespoke data analytics services that include:

- Legal spend analytics and panel counsel optimization
- Predictive analytics for dynamic contract risk assessment
- Analytical optimization of vendor and warranty agreements
- Settlement tools for mass tort and class action medical data

5 good reasons why you should be working with us

1. Our leadership team have decades of combined experience in legal operations and architecting smart answers for small to Fortune 1000 firms and corporations across five continents.
2. Our consulting process isn't about selling our own software - we can work with your existing technology or connect you with a trusted partner if that's the best solution.
3. Our data modelling is built in-house by experts with business outcomes in mind which gives us the ability to analyze any data set and provide actionable insights.
4. We have a broad and deep level of specializations, including M&A and due diligence, e-Discovery, medical legal services, immigration, data management and analytics and compliance-based services.
5. Our proprietary, cloud-based contract management software delivers customizable, interactive dashboards that spot trends, outliers and patterns in contract data to help you analyze contracts and related obligations, and create impactful value that your clients will notice.

Document services

£6.7 million saved through resourcing

Contract review

50% reduction of contract cycle times; 12% reduction in revenue leakage; 15% increase in revenue

Due Diligence

70% reduction in due diligence costs; 30% savings on due diligence work

eDiscovery

98% document review accuracy

"We're delighted with Exigent's software and services. Their team always pushes us to find better ways of negotiating contracts and using data better."
John Albright, CLO, Hub International

"What I love about Exigent is that I tell you what my problem is and you build me a solution across multiple work streams. Law firms and consultancies don't."
Kevin Lester, Head of Legal: South Africa, Anglo American
