

What Makes KHC Unique

Kansas Hospice Care's highly skilled professionals provide medical care, spiritual support, and social services you can rely on. Equally important, we get to know our patients and their family members personally. They become our extended families. If a patient has an unusual need or request, we go the extra mile in trying to fulfill it.

Kansas Hospice Care is a Christian-principled company that strives to care for others with Integrity, Fairness, Diligence and Generosity doing what we say we will, when we say we will, to the best of our abilities.

If you or a loved one could benefit from our comprehensive approach to palliative care, we welcome the opportunity to discuss it with you. Call us at (913) 353-6525 or (785) 746-4400 to learn more about the care you need and the comfort you deserve.

What Our Clients are Saying

"You were a phone call away, a security blanket that helped whenever we needed it. I don't think we could have taken care of my mother at home without your help."

"From visits to laundry to shopping...it's so evident that you all really care and thus you provide such deep comfort."

The Kansas Hospice Team

Nurse Case Managers, in consultation with the patient's physician, are responsible for all aspects of care and comfort.

Home Health Aides are available to help patients with the activities of daily living.

Chaplains/Spiritual Counselors support the family and patient in their spiritual needs. All services are non-denominational and consistent with the patient's individual beliefs and values.

Social Workers assist in identifying community resources and provide counseling and support for the patient and their family.

Trained Volunteers are available for companionship and to help with household errands.

The **Hospice Medical Director**, working alongside the patient's primary care physician, provides medical guidance for the Kansas Hospice Care team.

**Your In-Home
Hospice Care Experts**

Professional Care Personalized Comfort

Kansas Hospice Care offers our patients the very best care available in their home, without unnecessary emergency room visits, hospitalizations or trips to the doctor's office while in cooperation with their physician. Our professional staff of nurses, social workers, chaplains and home health aides brings maximum care and comfort, developing personal relationships with patients and families in the process.

Insurance Covers Most Services

Much to the surprise of many families and patients, hospice care is covered by Medicare, Medicaid and most insurance companies. Patients pay nothing for KHC services if they meet Medicare's hospice benefit guidelines. To qualify, patients must: (1) have an irreversible illness, (2) have chosen not to aggressively fight the illness and (3) their physician recommends them for care.

We provide your day-to-day care under the guidance of our medical director, but we also work closely with your referring physician to get valuable guidance and keep him/her informed about you, as well as any emerging conditions.

Your In-Home Hospice Care Experts

KHC provides a wide range of services to assure the best care available.
