

# A FEW OF OUR MANY VALUED CLIENTS

## Who We Are

# OUR COMPANY

Since its founding in 1989, Hadfield Building Corp. has been a family owned and operated business located in Las Vegas, Nevada. The company originally specialized in custom residential properties, but over the years it evolved into a full-service construction company with General Contracting, Design/Build and Construction Management. Hadfield branched into commercial construction in the late 1990s. From that point, the company began to focus exclusively on commercial construction: public buildings, warehouse, retail, offices and medical facilities. This principle of providing clients a quality project at a competitive price while maintaining accurate budgets, timely construction completions and exceptional work site safety sets Hadfield Building Corp. apart from the competition. The firm's commitment to providing experienced, in depth construction expertise and professionally skilled project managers help to ensure the highest quality construction standards and consistently fulfill and exceed client expectations.
