

*In Collaboration  
With*

- Land In Phnom Penh
- Learn about the History and have a night in the “Big City”
- Travel to Kampot
- Tour the local market
- Yoga/workout/meditations in the countryside
- Environmental Projects, Playing and extracurricular classes with the kids
- Learn to make upcycled products
- Recycling Projects includes making bottle bricks, community outreach with implementing trash system in the village, building/learning with locals and helping to develop and establish a local run eco-construction business made for and by the locals. This includes working alongside the villagers and making more structures with recycled materials.
- Eco-building workshop with our Engineer from Earthship Cambodia and sustainable housing
- Two nights on Rabbit Island-swimming, relaxing and checking out the glowing plankton
- Adventure to secret jungle waterfall and picnic
- Paddleboard through the Mangrove forest
- Playing volleyball and swimming in the local spring with the locals
- Learning to make natural health products from moringa and other plants from our farm
- We will also start planning an educational field trip with our students that will be organized and facilitated by our volunteers in collaboration with our guides.
- (Maybe beach clean-up or the wildlife Alliance Animal Rehabilitation Sanctuary)

**Saturdays and Sundays** of each week are English classes, Alongside the extracurricular activities that our volunteers plan for the kids, they will have a small group and individual tutoring sessions.

- Goodbye ceremony:
- Huge celebration with the students, villagers
- Food, music, affirmation circles, speeches, games....
- Travel to Siem Reap, visit the night market and see a local show/massage
- Angkor Wat, Kulen Temple and waterfall
- Transport Back to Phnom Penh
- Fly out
