

Dive Services

Blackwater Specialists

JPS provides the most qualified “Blackwater” divers in the industry; a claim supported by maintenance of thousands of treatment lagoons and countless hours of maintenance to those lagoons. From complete installation of baffle curtains, erosion barriers and aerators, to repairing baffles, air laterals and river outfalls; JPS certified personnel are ready for any task. JPS offers services during hot or cold shutdowns providing annual maintenance to treatment system components. Aside from scheduled maintenance and repair, a JPS Dive Team can be on site within 24 hours for emergency service. As a long-standing member of the ADC, JPS maintains an attitude of preparation and safety-first in order to save time on site and to

be as thorough as possible. Emphasis on equipment, including backup equipment, dive support equipment, boats, and the constant maintenance of such equipment promotes our longevity and reliability.
