CE Option

NOTE: Boats which are ordered with 220V/50 Cycle Electrical Systems will be installed with the appropriate appliances in the corresponding voltage.

**Cabin/Cockpit Layout w/Optional Seating**

# 290 Bow Rider

2003

To port, an enclosed, lockable head compartment with VacuFlush® head and sink with pullout sprayer makes the hours on the water much more enjoyable.

Pile on the filler cushions and turn the bow area or the cockpit area into a sun pad.

Cockpit seating in the 290 Bow Rider includes a circular upholstered bench seat with padded engine cover and a removable table for meals or cocktails.

Boaters continue to ask for bigger and bigger bow riders. And this is one big bow rider boat. In fact, this could be the biggest and the best bow rider of them all! With a wide 9' 8" wave-calming beam and with the power of a MerCruiser® MX6.2L MPI Bravo® III stern drive behind you, this boat will take you smoothly and comfortably over any water you care to encounter. Hey, have a great day!

The cockpit area has lots of storage space for all those things that somehow become absolutely imperative to a successful day on the water.

Abaft the helmsman's seat, the refreshment center has a wet bar with cooler, sink, faucet, stainless steel beverage holders (4), trash receptacle and storage cabinet with bottle rack.

At the helm, a double seat with flip-up high-rise bolster and a tilt wheel with power steering make things more comfortable for the helmsman. The waterproof electronic switch pads have illuminated ISO symbols.
